Report Of Investigation

Case Matter: An organized business association appears to be conducting organized crime and racketeering activities in violation of RICO and other felony crime laws. This investigation examines the merits of said charges.

Investigation Summary: A group of predominantly white males with affiliations from Stanford University and other high cost University fraternity organizations, including Yale and Harvard Universities, formed an organization which they, and the news media, refer to under various identifiers, ie: “*The PayPal Mafia*”, “*The Palo Alto Mafia*”, “*The Tribe*”, “*The Deep State*”, “*The Illuminati*”, “*The Guardsman*”, and other names. The members photograph themselves dressed as Italian Mafia characters, refer to themselves as “*Don’s*”, “*Godfather*” and “*Consiglieres*” and refer to the need to “*become the Mafia of Silicon Valley..*” in their texts and emails. Numerous criminal and illicit actions have been organized, financed, operated and profited by this organization. Through exclusive access to taxpayer financed resources, this group has created windfall monopolies which pay dramatically large bribes to public officials and attack all competitors in illegal manners. These names, companies, trusts, shell corporations, investment bank accounts and cross-connects are now active in the XKEYSCORE and OPTI-NEX2 surveillance databases.

Case Type Charges Against This Organization:

The suspects have engaged in the following felony actions -

Attack Service Production: The purchasing and operation of services design to harm, damage, defame, character assassinate or kill by suicide, another entity as an anti-trust violating tactic

Bank Fraud: To engage in an act or pattern of activity where the purpose is to defraud a bank of funds.

Blackmail: A demand for money or other consideration under threat to do bodily harm, to injure property, to accuse of a crime, or to expose secrets.

Bribery: When money, goods, stock warrants, sex workers, revolving door jobs, services, information or anything else of value is offered with intent to influence the actions, opinions, or decisions of the taker. You may be charged with bribery whether you offer the bribe or accept it.

Computer fraud: Where computer hackers steal information sources contained on computers such as: bank information, credit cards, and proprietary information.

Counterfeiting of Online Advertising Views: When someone copies or imitates an item without having been authorized to do so and passes the copy off for the genuine or original item. Counterfeiting is most often associated with money however can also be associated with designer clothing, handbags and watches.

Credit Card Fraud: The unauthorized use of a credit card to obtain goods of value.

Currency Schemes: The practice of speculating on the future value of currencies.

Embezzlement: When a person who has been entrusted with money or property appropriates it for his or her own use and benefit.

Environmental Schemes: The overbilling and fraudulent practices exercised by corporations which purport to clean up the environment.

Extortion: Occurs when one person illegally obtains property from another by actual or threatened force, fear, or violence, or under cover of official right.

False Charity Organizations: The creation of hospitals and false charity fund 501 C 3, 501 C 4 and other IRS facades to falsify funds transactions

Forgery: When a person passes a false or worthless instrument such as a check or counterfeit security with the intent to defraud or injure the recipient.

Health Care Fraud: Where an unlicensed health care provider provides services under the guise of being licensed and obtains monetary benefit for the service.

Insider Trading: When a person uses inside, confidential, or advance information to trade in shares of publicly held corporations.

Insurance Fraud: To engage in an act or pattern of activity wherein one obtains proceeds from an insurance company through deception.

Investment Schemes: Where an unsuspecting victim is contacted by the actor who promises to provide a large return on a small investment.

Kickback: Occurs when a person who sells an item pays back a portion of the purchase price to the buyer.

Larceny/Theft: When a person wrongfully takes another person's money or property with the intent to appropriate, convert or steal it.

Money Laundering: The investment or transfer of money from racketeering, drug transactions or other embezzlement schemes so that it appears that its original source either cannot be traced or is legitimate.

Murder: The act of killing, or ordering the killing, of another person.

Racketeering: The operation of an illegal business for personal profit.

Securities Fraud: The act of artificially inflating the price of stocks by brokers so that buyers can purchase a stock on the rise.

Self Dealing Through Shell Corporations:

Stock Market Manipulation: The use of monopolistic search engines coordinated with controlled news outlets and computerized stock market actions to manipulate stock valuations, insider trades, pump-and-dump skims and other illicit technology stock market actions.

Sex Trafficking: The use of “clubs” organized for and by Silicon Valley oligarchs, to move sexual providers into, and out of, the area at frequent intervals and to exploit underage and at risk young boys and girls.

Tax Evasion: When a person commits fraud in filing or paying taxes.

Telemarketing Fraud: Actors operate out of boiler rooms and place telephone calls to residences and corporations where the actor requests a donation to an alleged charitable organization or where the actor requests money up front or a credit card number up front, and does not use the donation for the stated purpose.

Weights and Measures: The act of placing an item for sale at one price yet charging a higher price at the time of sale or short weighing an item when the label reflects a higher weight.

Advanced Fee Schemes: Actor induces victim to give him some type of advanced fee in return for a future benefit. The future benefit never occurs and victim never receives the advanced fee back.

Coupon Redemption: Tech companies amass large amounts of coupons and redeem them to manufacturers when in fact merchandise was never sold.

Directory Advertising: Actor either impersonates sales person from a directory company like the yellow pages or fraudulently sells advertising which the victim never receives.

Ponzi: An investment scheme where the actor solicits investors in a business venture, promising extremely high financial returns or dividends in a very short period of time. The actor never invests the money, however, does pay dividends. The dividends consist of the newest investors funds. The first investors, pleased to receive dividends, encourage new investors to invest. This scheme falls apart when the actor no longer has sufficient new investors to distribute dividends to the old investors or the actor simply takes all the funds and leaves the area.

Pyramid: An investment fraud in which an individual is offered a distributorship or franchise to market a particular product. The promoter of the pyramid represents that although marketing of the product will result in profits, larger profits will be earned by the sale of franchises. For example, if a franchise price is \$10,000.00, the seller receives \$3,500.00 for every franchise sold. Each new franchise purchaser is presented with the same proposal so that each franchise owner is attempting to sell franchises. Once the supply of potential investors is exhausted, the pyramid collapses. Many times, there are no products involved in the franchise, simply just the exchange of money.

Key Parties Under Surveillance And Investigation:

- Abound Solar - Criminally corrupt crony campaign finance front operation. (Terminated)
- Adrian Covert – Gawker/Gizmodo/CNN character assassin reporter (Under surveillance and investigation)
- Allison Spinner – Wife of Steve Spinner and lawyer at WSGR and Solyndra who helped Feinstein rig the Solyndra cash ((Under investigation. All assets being tracked and terminated.)

Staffing The Mob – Who Does Their Dirty Work?

These oligarchs soon discover that they can only buy some many mansions, parties, jets, prostitutes and rent boys before they become bored. Their circle of confidants and operatives offer them the opportunity to use Democracy as their plaything. Almost every one of them has joined this opportunity because it appeals to their narcissist sociopath personality type which attracts them to each other.

While most people might have the first impression that Steve Jobs ex-wife is just a “perky blonde party girl”, they could not be more wrong. Her operatives via the Emerson Collective and Renaissance Weekend finance and run a large portion of the California government. In the case of all of the Silicon Valley oligarchs, they have hundreds of people employed around them to create a “bubble of positive optics” around the oligarch, while their operatives labor behind the curtain on sinister deeds. The murder of the journalist Kashoggi, even ensnared Ms. Jobs in it’s clutches.

Every single one of these supposed “world saving elites” has severe skeletons in the closet:

The Operatives

These are the dirty dealers who delight in the kill

Joe Rhodes

David Plouffe

David Axelrod

Margaret Sullivan

Tom Steyer

The Lobbyists

The people who organize bribes without ever using the word “bribe”. They care nothing for the public and make laws only-for-oligarchs:

Josh Ackil and Matt Tanielian, Franklin Square Group. With clients including Apple, Google and Intel, the two Democrats are among the elite lobbyists for Silicon Valley in Washington.

Nick Allard, Thomas Hale Boggs Jr., Micah Green, Jonathan Yarowsky and Edward Newberry, Patton Boggs. The firm continues to reign on K Street thanks to its roster of seasoned power brokers.

Andy Barbour, Smith-Free Group. Smith lobbies for several financial and insurance companies but is best known for his work as the lead Democratic lobbyist for the Financial Services Roundtable.

Doyle Bartlett, Eris Group. Bartlett has years of Capitol Hill experience and a busy lobbying practice that is on the front lines for clients including MetLife, Genentech and eBay.

Jeff Berman and David Russell, Bryan Cave. Berman, the former delegate counter for President Obama’s 2008 campaign, and Russell, a former chief of staff to the late Sen. Ted Stevens (R-Alaska), are standouts on a capable lobby team.

Wayne Berman, Drew Maloney and Moses Mercado, Ogilvy Government Relations. Ogilvy’s commanding K Street presence reflects the firm’s deep ties to leaders in both parties.

Jim Blanchard and Ilia Rodriguez, DLA Piper. Blanchard, a former Democratic governor of Michigan, and Rodriguez, an ex-lobbyist for the Center for American Progress, are at the vanguard of a formidable K Street team.

Daniel Boston, Health Policy Source. Boston’s numerous healthcare clients turn to him for the policy expertise he honed as a GOP aide on Capitol Hill.

Chuck Brain, Capitol Hill Strategies Inc. Once a Clinton White House aide and longtime House Ways and Means Committee staffer, Brain would make any list of the best-known Democratic lobbyists in town.

John Breaux and Trent Lott, Breaux-Lott Leadership Group. Now merged with Patton Boggs, the two former senators are going strong with a profitable lobbying practice anchored by several blue-chip clients.

Gerald Cassidy and Gregg Hartley, Cassidy & Associates. The trailblazing firm has regained momentum by diversifying its practice following a staff shake-up late last year.

David Castagnetti and Alex Vogel, Mehlman Vogel Castagnetti. The bipartisan shop has heavy hitters on both sides of the aisle, thanks to Democrat Castagnetti.

Rodger Currie, Foley Hoag LLP. A former lobbyist for PhRMA, Currie now works for several clients at Foley Hoag in the healthcare, medical and biotechnology fields.

Al D'Amato, Park Strategies. The former GOP New York senator has been a big advocate for online gambling as a lobbyist for the Poker Players Alliance.

Linda Daschle, LHD & Associates. Daschle, a former administrator for the Federal Aviation Administration, remains one of Washington's top aviation lobbyists.

Licy Do Canto, The DoCanto Group. The former aide to Rep. Barney Frank (D-Mass.) and the late Sen. Edward Kennedy (D-Mass.) is a highly regarded healthcare lobbyist.

Julie Domenick, Multiple Strategies LLC. The Democratic lobbyist, who was once targeted by the K Street Project, has flourished by opening her own firm.

Ken Duberstein and Marti Thomas, The Duberstein Group. Duberstein was floated as a candidate for Obama's chief of staff before the president chose Bill Daley, while Thomas is a Democratic vet who worked in the Clinton Treasury Department.

Steve Elmendorf and Jimmy Ryan, Elmendorf | Ryan. A former aide to ex-House Democratic Leader Richard Gephardt (Mo.), Elmendorf brought in Ryan to help expand the Senate ties of his thriving firm.

Victor Fazio, Joel Jankowsky, Scott Parven and Bill Paxon, Akin, Gump, Strauss, Hauer & Feld. Fazio, Jankowsky, Parven and Paxon are among the lobbyists who keep Akiwn Gump humming along as one of the top earners on K Street.

Mitch Feuer and Robert Griner, Rich Feuer Group. The two lobbyists work for first-tier clients from the financial services world, including Visa and Goldman Sachs.

Mike Fulton, GolinHarris. Fulton is well versed in the minutiae of the Washington bureaucracy and is adept at finding federal grants for his clients.

Sam Geduldig, Clark Lytle Geduldig & Cranford. The former House Republican leadership aide has seen a business boom at his firm since the GOP takeover of the lower chamber.

Nick Giordano, Washington Council Ernst & Young. A former counsel to the Senate Finance Committee, Giordano is one of the best tax lobbyists in town.

Rich Gold, Kathryn Lehman and Gerry Sikorski, Holland & Knight. The firm's flourishing lobbying practice is plugged in to both parties.

Slade Gorton and Emanuel Rouvelas, K&L Gates. Gorton, an ex-GOP senator from Washington, and Democrat Rouvelas are just a few of the big names at the prominent law and lobby firm.

Fred Graefe, Law Offices of Frederick H. Graefe. Graefe is a force among Democratic healthcare lobbyists.

Lanny Griffith and Loren Monroe, BGR Group. Though it has added Democrats, Griffith and Monroe's firm is known for GOP connections and has benefitted from long-standing ties to the new House leadership.

J. Steven Hart, Williams & Jensen. Hart is a sought-after GOP fundraiser who has steered the ship for more than a decade as Williams & Jensen's chairman and CEO.

Michael Herson, American Defense International. Herson's Pentagon and White House experience has been an asset to him as president of the successful defense consulting and lobbying firm.

Mike House, Hogan & Lovells. House leads the government relations practice at the firm and calls the shots on a prized account with Nissan North America.

Mark Isakowitz, Fierce, Isakowitz and Blalock. Isakowitz and his GOP lobby shop scored a coup this year when Apple and Facebook both signed up as clients in a two-week span.

Chris Jennings, Jennings Policy Strategies. A sage on healthcare reform, Jennings worked on President Clinton's reform push and later lobbied on Obama's bill.

Joel Johnson, The Glover Park Group. The former aide to Sen. Tom Daschle (D-S.D.) helps manage one of the marquee Democratic-leaning firms in town.

Thomas Jolly, Jolly/Rissler. Jolly is founding chairman of the Washington Caucus, a group that hosts dinners with lawmakers, and a mainstay among Democratic lobbyists.

Mark Kadesh, Kadesh & Associates. Kadesh, once chief of staff to Sen. Dianne Feinstein (D-Calif.), has an A-list of California clients and a reputation as a real pro.

Matt Keelen, The Keelen Group. The Republican lobbyist and campaign guru is a bridge to labor for the GOP.

Rick Kessler and Steve Sayle, Dow Lohnes Government Strategies. The former House Energy and Commerce Committee aides — Kessler a Democrat and Sayle a Republican — have built a well-established lobbying practice.

Kenneth Kies, Federal Policy Group. Kies will be one to watch during the corporate tax reform debate because he was a key aide during the last overhaul of the tax code.

Lisa Kountoupes, Kountoupes Consulting. The former aide to Rep. John Dingell (D-Mich.) has her own lobby shop and contracts with Best Buy, Yahoo and Intel.

Marc Lampkin and Jack Quinn, Quinn Gillespie & Associates. Republican Lampkin and Democrat Quinn make for a blockbuster pairing.

Bob Livingston, The Livingston Group. Republican Livingston, a former House Appropriations Committee chairman, is a statesman on K Street.

Sander Lurie and Todd Weiss, SNR Denton. Lurie, a former chief of staff to Sen. Debbie Stabenow (D-Mich.), and Weiss, who has worked for former Sens. Tim Hutchinson (R-Texas) and Rick Santorum (R-Pa.), make for a strong one-two punch.

Steve McBee, McBee Strategic. A former aide to Rep. Norm Dicks (D-Wash.), McBee has seen his lobby firm take off.

Al Mottur and Manuel Ortiz, Brownstein Hyatt Farber Schreck. Mottur heads up lobbying operations at the K Street giant. Ortiz, one of Brownstein's newest hires, is a rising star in Democratic circles.

Larry O'Brien, OB-C Group. O'Brien is one of the most potent Democratic fundraisers in the country.

Tom O'Donnell, Gephardt Government Affairs Group. O'Donnell and his former Capitol Hill boss, ex-House Democratic Leader Richard Gephardt (Mo.), have done well since joining forces.

Marty Paone, Prime Policy Group. Paone spent decades on Capitol Hill working for Senate Democrats and is part of the leadership team at Prime Policy, one of K Street's most successful firms.

Jeff Peck, Peck, Madigan, Jones & Stewart. Once an aide to then-Sen. Joe Biden (D-Del.) on the Senate Judiciary Committee, Peck has carved out a niche working on the Dodd-Frank reform law.

Steve Perry and Andy Wright, Dutko Grayling. Perry and Wright man the roster for one of the top 20 lobby shops in Washington.

Jim Pitts and Chris Cox, Navigators Global. Pitts's firm has welcomed back GOP consultant Mike Murphy, adding more Republican talent to pair with Cox, a skilled hand from the George W. Bush White House.

Heather Podesta, Heather Podesta + Partners. The former congressional aide has built a solid lobbying practice and helps fundraise for Democrats with her husband, Tony.

Tony Podesta, Podesta Group. The prolific Democratic fundraiser has seen his firm rocket to the echelons of the top five lobby shops.

Thomas Quinn, Venable. Quinn's ebullient personality is complemented by deep knowledge of the financial sector that dates back to his time as general counsel to the Comptroller of the Currency.

Robert Raben, The Raben Group. Raben, a former aide to Rep. Barney Frank (D-Mass.) and Clinton Justice Department official, runs one of the best Democratic-leaning lobby shops in town with clients in the corporate and nonprofit world.

John Raffaelli, Capitol Counsel. The former Democratic staffer has more than 25 years of expertise in taxation and international trade — two issues at the top of the congressional agenda.

Mark Rayder, Alston + Bird. Rayder's Hill experience in appropriations and healthcare policy makes for a dynamite combination.

Melissa Schulman, The Bockorny Group. A former aide to Rep. Steny Hoyer (D-Md.), Schulman has the connections to centrist Democrats that are always prized on K Street.

Scott Segal, Bracewell & Giuliani. Segal is a respected advocate for several electric utilities and energy companies and played a big part in the industry response to the Gulf of Mexico oil spill.

Rhod Shaw, The Alpine Group. Shaw is an astute observer of Congress who has worked on several major pieces of environmental and telecommunications legislation.

Tom Sheridan, The Sheridan Group. Sheridan uses his social services and public policy experience to bolster causes that don't fit the typical K Street mold.

Tracy Spicer, Avenue Solutions. Spicer mastered policy working for the late Sen. Edward Kennedy (D-Mass.) and is a trusted adviser for a number of leading health insurers.

Charles Stenholm, Olsson Frank Weeda Terman Bode Matz PC. Stenholm's decades of experience on the House Committee on Agriculture will be called upon as Congress crafts the next farm bill.

Alexander Sternhell, Sternhell Group. Previously a Senate Banking Committee staffer, Sternhell's two-year-old venture is in the big leagues with clients such as Citigroup Management and PricewaterhouseCoopers.

Sandi Stuart and Vin Weber, Clark & Weinstock. Stuart's executive experience under President Clinton and Weber's past as a GOP congressman from Minnesota have lured a diverse clientele to the firm.

Linda Tarplin, Tarplin, Downs & Young. Tarplin remained among the elite healthcare lobbyists during the reform debate, and her GOP background makes the 112th Congress a prime time to display her prowess.

Rich Tarplin, Tarplin Strategies. Tarplin exemplifies the breed of lobbyist who makes a living by out-working the competition.

Dan Tate Jr., Capitol Solutions. Tate delivers stellar client relations while harnessing 10 years of upper-level Hill and administration experience.

Robert Van Heuvelen, VH Strategies. Van Heuvelen shrewdly surrounds himself with the best; he recently hired Stephen Ward, formerly chief of staff to Sen. Jeff Bingaman (D-N.M.), to help keep his firm among the elite.

Stu Van Scoyoc, Van Scoyoc Associates. The man who founded a top-earning lobby firm specializing on taxation and appropriations will have plenty of work in the months ahead.

(See Complete List In Appendix)

The Hit Job Providers

The kill services firms -

How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media

Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers.

How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways.

It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent.

The client does not like to get their hands dirty so the actual social hit job is performed by companies such as:

IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Stratfor - (DNC/GOP); ShareBlue - (DNC); Wikileaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal- (DNC); David Brock - (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling - (DNC), BuzzFeed - (DNC) Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced

out of business. These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal!

These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated.

The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University."

Trending: Brennan and Clapper Accused of Hacking John Roberts To Blackmail Him

Here is the memo published by the Foundation, which dropped the documents in their entirety:

Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation.

Larry Schweikart reported for Big League Politics:

For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI.

This is what President Trump calls "SPYGATE".

It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker:

President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the “Electronic Surveillance Authorization” () “Foreign intelligence in relation to a US person (Trump or his associates) is information that’s necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S.” Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. (“The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.”)

In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC.

This is what they are hiding.

However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

1) Obama authorized spying/electronic surveillance on Team Trump, by-passing normal judicial oversight.

2) To create “foreign intelligence,” John Brennan and others organized for UK intelligence to conduct surveillance on Trump and his associates, either from the UK or from UK assets within the U.S. This is another reason revealing this will unleash an excrement storm: the UK is about to be caught meddling bigly in an American election.

3) Lynch certified Obama’s authorization which is now held under seal by DOJ (and FISC).

From this authorization, all unmaking followed, as well as the FBI fraudulent counter intel investigation and perhaps the FISA warrant too. Obama knew this was all fake when he made the authorization; Lynch knew it was fake when she certified it; the entire inner circle, including the FBI, all knew. This takes the U.S. into uncharted territory, and could imperil any politician in the British government who supported this or had knowledge of it. Proving any of this would be difficult, as if confronted Lynch would almost certainly cover up and Obama would simply deny knowledge. Without a paper trail, a conviction might be a bridge too far. This is only one of thousands of “kill order” tactics introduced by the Obama Administration.

These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies:

- Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends.

They use the target victims as a “smokescreen” to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.

- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.

- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are “lost”. Files in the application process “disappeared”. Lois Lerner hard drive “incidents” are operated in order to seek to hide information and run cover-ups.

- Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national “black-lists” to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Siry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.

- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.

- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. Heavy metals and toxic materials were found right after their work with the Department of Energy weapons

and energy facilities. Many wonder if these “targets” were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic.

- On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google’s “impressions” are manually controlled by Google’s executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it’s ongoing prosecution of Google’s political manipulation of public perceptions.

- Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment.

- Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.

- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.

- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.

- Over 50,000 trolls, shells, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.

- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". While this may sound pretty out there, web search "Embassy sonic attacks" on the top 5 non-Google search engines and read the very credible reports of these attacks.

- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.

- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.

- Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.

- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.

- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world

for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

- Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.

- There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left.

Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage.

!!!! Mueller Hears That Silicon Valley Has Been Manipulating The Entire BREXIT Campaign !!!!!

- Second former employee of controversial data firm to be questioned by special counsel's inquiry into Russia collusion

By Carole Cadwalladr

Brittany Kaiser is said to be cooperating fully with the Mueller inquiry.

A director of the controversial data company Cambridge Analytica, who appeared with Arron Banks at the launch of the Leave.EU campaign, has been subpoenaed by the US investigation into possible collusion between the Trump campaign and the Russian government.

A spokesman for Brittany Kaiser, former business development director for Cambridge Analytica – which collapsed after the Observer revealed details of its misuse of Facebook data – confirmed that she had been subpoenaed by special counsel Robert Mueller, and was cooperating fully with his investigation.

He added that she was assisting other US congressional and legal investigations into the company's activities and had voluntarily turned over documents and data.

Kaiser, who gave evidence to the UK parliament last April in which she claimed Cambridge Analytica had carried out in-depth work for Leave.EU, is the second individual connected to the firm subpoenaed by the special counsel. The Electoral Commission has said its investigation into Leave.EU found no evidence that the campaign “received donations or paid for services from Cambridge Analytica ... beyond initial scoping work”.

Damian Collins, chairman of parliament's inquiry into fake news, said it was “no surprise” that Kaiser was under scrutiny by Mueller because “her work connected her to WikiLeaks, Cambridge Analytica and [its parent company] SCL, the Trump campaign, Leave.EU and Arron Banks”.

He said it was now vital Britain had its own inquiry into foreign interference: “We should not be leaving this to the Americans.”

Tom Watson, the deputy leader of the Labour party, echoed Collins's statement, saying: “This is the first evidence that a significant player in the Leave.EU campaign is of interest to the global Mueller inquiry. People will be bewildered that the British government has no interest in establishing the facts of what happened.”

In August, Sam Patten, a US political consultant who had worked for Cambridge Analytica on campaigns in the US and abroad, struck a plea deal with Mueller after admitting he had failed to register as a foreign agent for a Ukrainian oligarch.

He became a subject of the special counsel's inquiry because of work done with Paul Manafort, Trump's campaign manager, in Ukraine. He had also set up a business with Konstantin Kilimnik, a key figure who Mueller has alleged has ties to Russian intelligence and who is facing charges of obstruction of justice. In a 2017 statement to the Washington Post, Kilimnik denied any connection to intelligence services. Kaiser, however, is the first person connected directly to both the Brexit and Trump campaigns known to have been questioned by Mueller.

The news came to light in a new Netflix documentary, *The Great Hack*, which premiered at the Sundance film festival last month and is expected to be released later this spring. Film-makers followed Kaiser for months after she approached the Guardian, including moments after she received the subpoena. She claims the summons came after the Guardian revealed she had visited WikiLeaks founder Julian Assange while still a Cambridge Analytica employee in February 2017, three months after the US election.

One part of Mueller’s investigation focuses on whether the Trump campaign sought to influence the timing of the release of emails by WikiLeaks before the election. Investigators are looking at communications between them. In the film, Kaiser says that she has gone from being a cooperating witness to a subject of investigation because of her contact with Assange.

In October 2017, it was revealed that Alexander Nix, the chief executive of Cambridge Analytica, had contacted Assange in August 2016 to try to obtain emails from Hillary Clinton’s presidential campaign – which indictments from Mueller’s team say were obtained by Russian military intelligence – to use in Donald Trump’s campaign. When Kaiser gave evidence to parliament last year, she was asked about her relationship with Assange and WikiLeaks but failed to reveal that she had met Assange.

In the documentary, Kaiser is shown after receiving an email from the Guardian last June asking about meeting Assange and alleged donations of cryptocurrency to WikiLeaks. Kaiser did not respond to the email at the time, but on camera says: “She knows I met Assange. And she knows I donated money to WikiLeaks in bitcoin.”

Her legal representatives later wrote to the paper to say that the allegations, including that she had “channelled” donations to WikiLeaks, were false. Kaiser said she had received a small gift of bitcoin in 2011 – long before she worked at Cambridge Analytica – and, not knowing what else to do with it, gave it to WikiLeaks, because she had benefited from material it had released over the years.

Her lawyer told the Observer that the meeting with Assange came about after a chance encounter in London with an acquaintance who knew him. It lasted 20 minutes and consisted mainly of Assange telling her “about how he saw the world”. He said they did not discuss the US election.

Patten and Kaiser were involved in a controversial election campaign in Nigeria in January 2015, which former Cambridge Analytica employees say had “unsettling” parallels to the US presidential election.

The Guardian revealed that the data firm had worked alongside a team of unidentified Israeli intelligence operatives on the campaign. Ex-Cambridge Analytica employees described how the Israelis hacked the now-president of Nigeria’s emails and released damaging information about him to the press weeks before the election.

CBS NEWS 60 MINUTES Lara Logan "I'm Being 'Targeted' For Saying the Media is 'Mostly Liberal'"
by Tamar Auber

On Wednesday, former CBS News foreign correspondent Lara Logan spoke with Fox News Sean Hannity about her recent comments slamming the media as “mostly liberal.”

Logan told Breitbart podcaster Mike Ritland the remarks made on his show — which drew widespread attention online — amounted to “professional suicide.”

Defending her remarks on Hannity’s show, Logan said that as the result of her speaking out about how the media is “mostly liberal” she has been targeted because she is an independent voice.

“Any journalists who are not beating the same drum and giving the same talking points,” she insisted “pay the price” for not going along with the liberal crowd.

She also called out her targeters by name.

“I know they’re going to come after me,” she told Hannity. “Michael Calderone who is at the Huffington Post. I can give you the script now. I can tell you who the players are. Joe Hagan. Brian Stelter.”

She added: “They smear you personally. They go after your integrity. They go after your reputation as a person and a professional. They will stop at nothing. I am not the only one. And I am just, I am done, right, I am tired of it. And they do not get to write my story anymore. They don’t get to speak for me, I want to say loudly and clearly to anybody who is listening, I am not owned. Nobody owns me, right? I’m not owned by the left or the right.”

Logan made headlines recently when, during a scorched earth podcast interview with Ritland, she said that there was a lot of “weight” in most news organizations on “one side of the political spectrum.”

“The media everywhere is mostly liberal. But in this country, 85 percent of journalists are registered Democrats. So that’s just a fact, right?” she told Ritland.

She also trashed reporting based on single, anonymous government sources.

“That’s not journalism, that’s horseshit,” Logan stressed. “Responsibility for fake news begins with us. We bear some responsibility for that, and we’re not taking ownership of that and addressing it. We just want to blame it all on somebody else.”

=====

Internal documents from a private Israeli intelligence firm called Psy-Group show that, at the time of many incidents, the company, and possibly other private investigators, were targeting U.S. citizens because they spoke up about crimes.

Psy-Group’s intelligence and influence operations, which included a failed attempt in the summer of 2017 to sway a local election in central California, were detailed in a New Yorker investigation that I co-wrote earlier this month. Before it went out of business (ie: changed it's name) , last year, Psy-Group was part of a new wave of private-intelligence firms that recruited from the ranks of Israel’s secret services and described themselves as “private Mossads.” Psy-Group initially stood out among its rivals because it didn’t just gather intelligence; its operatives used false identities, or avatars, to covertly spread messages in an attempt to influence what people believed and how they behaved. In 2016, Psy-Group held discussions with the Trump campaign and others about conducting covert “influence” operations to benefit the candidate. Psy-Group’s founder and C.E.O., Royi Burstien, a veteran Israeli intelligence officer who established the firm in 2014, told me that his talks with the Trump campaign

went nowhere. The company's posturing, however, attracted the attention of Robert Mueller, the special counsel, who has been investigating interference in the 2016 Presidential race.'

=====

FED BOMBHELL: Fusion GPS Bribed Dozens of MSM Journalists With Cash To Run Character Assassinations, While News Companies Paid Firm to Dig Dirt on Trump

High-ranking FBI insiders are pulling back the curtain on Fusion GPS, the firm that commissioned and spread the bogus Trump dossier.

It appears the embattled intelligence firm was quite busy paying off Big Media reporters, according to federal sources who have traced dozens of transactions between TD Bank and media members as well as media organizations, sources confirm.

But stunningly, Big Media organizations have employed Fusion GPS to dig dirt on politicians and D.C.'s elite — namely Donald Trump.

“Fusion GPS was on the payroll of the media and in turn had members of the media on its payroll,” one FBI insider said.

Bombshell revelations.

FBI insiders confirm Fusion GPS employed law firms as well as shell companies to send and receive funds to and from media and reporters. But the embattled firm also used its accounts at TD Bank to directly commission reporters. Likewise, Fusion GPS received funds from media companies into its own accounts at TD Bank, FBI insiders said,

“There are dozens of payments from the media flowing into their (Fusion GPS’) account,” one federal law enforcement official said. “One company wired funds to Fusion (GPS) more than a dozen times.”

Why would media companies commission Fusion GPS? Likely to dig dirt on enemies or secure records that reporters could not legally obtain, one federal law enforcement insider said. One FBI insider said the payments to Fusion GPS coincide with Donald Trump's run for the White House.

The payments were made between Sept. 2015 and Sept. 2017, records show.

The unthinkable: The mainstream media paying Fusion GPS for dirt on Trump to the same firm the Democratic National Committee paid to fund the bogus Trump dossier. And at the same time Fusion GPS bribing journalists to place stories — likely negative about Trump, as well as spread the bogus Trump dossier around.

Stunning.

Was BuzzFeed — the only company to publish the full bogus dossier — on that list?

And who is on the payroll? We are trying to run that information down.

And why aren't these people behind bars?

The Silicon Media Manipulators

HOW GOOGLE RIGS ELECTIONS AND CHARACTER ASSASSINATION ATTACKS AROUND THE GLOBE

BY ROBERT EPSTEIN

Authorities in the UK have finally figured out that fake news stories and Russian-placed ads are not the real problem. The UK Parliament is about to impose stiff penalties—not on the people who place the ads or write the stories, but on the Big Tech platforms that determine which ads and stories people actually see.

Parliament's plans will almost surely be energized by the latest leak of damning material from inside Google's fortress of secrecy: The Wall Street Journal recently reported on emails exchanged among Google employees in January 2017 in which they strategized about how to alter Google search results and other "ephemeral experiences" to counter President Donald Trump's newly imposed travel ban. The company claims that none of these plans was ever implemented, but who knows?

While U.S. authorities have merely held hearings, EU authorities have taken dramatic steps in recent years to limit the powers of Big Tech, most recently with a comprehensive law that protects user privacy—the General Data Protection Regulation—and a whopping \$5.1 billion fine against Google for monopolistic practices in the mobile device market. Last year, the European Union also levied a \$2.7 billion fine against Google for filtering and ordering search results in a way that favored their own products and services. That filtering and ordering, it turns out, is of crucial importance.

As years of research I've been conducting on online influence has shown, content per se is not the real threat these days; what really matters is (a) which content is selected for users to see, and (b) the way that content is ordered in search results, search suggestions, news feeds, message feeds, comment lists, and so on. That's where the power lies to shift opinions, purchases, and votes, and that power is held by a disturbingly small group of people.

I say "these days" because the explosive growth of a handful of massive platforms on the internet—the largest, by far, being Google and the next largest being Facebook—has changed everything. Millions of people and organizations are constantly trying to get their content in front of our eyes, but for more than 2.5 billion people around the world—soon to be more than 4 billion—the responsibility for what algorithms do should always lie with the people who wrote the algorithms and the companies that deployed them.

In randomized, controlled, peer-reviewed research I've conducted with thousands of people, I've shown repeatedly that when people are undecided, I can shift their opinions on just about any topic just by changing how I filter and order the information I show them. I've also shown that when, in multiple searches, I show people more and more information that favors one candidate, I can shift opinions even

farther. Even more disturbing, I can do these things in ways that are completely invisible to people and in ways that don't leave paper trails for authorities to trace.

Worse still, these new forms of influence often rely on ephemeral content—information that is generated on the fly by an algorithm and then disappears forever, which means that it would be difficult, if not impossible, for authorities to reconstruct. If, on Election Day this coming November, Mark Zuckerberg decides to broadcast go-out-and-vote reminders mainly to members of one political party, how would we be able to detect such a manipulation? If we can't detect it, how would we be able to reduce its impact? And how, days or weeks later, would we be able to turn back the clock to see what happened?

Of course, companies like Google and Facebook emphatically reject the idea that their search and newsfeed algorithms are being tweaked in ways that could meddle in elections. Doing so would undermine the public's trust in their companies, spokespeople have said. They insist that their algorithms are complicated, constantly changing, and subject to the "organic" activity of users.

This is, of course, sheer nonsense. Google can adjust its algorithms to favor any candidate it chooses no matter what the activity of users might be, just as easily as I do in my experiments. As legal scholar Frank Pasquale noted in his recent book "The Black Box Society," blaming algorithms just doesn't cut it; the responsibility for what an algorithm does should always lie with the people who wrote the algorithm and the companies that deployed the algorithm. Alan Murray, president of Fortune, recently framed the issue this way: "Rule one in the Age of AI: Humans remain accountable for decisions, even when made by machines."

Given that 95 percent of donations from Silicon Valley generally go to Democrats, it's hard to imagine that the algorithms of companies like Facebook and Google don't favor their favorite candidates. A newly leaked video of a 2016 meeting at Google shows without doubt that high-ranking Google executives share a strong political preference, which could easily be expressed in algorithms. The favoritism might be deliberately programmed or occur simply because of unconscious bias. Either way, votes and opinions shift.

It's also hard to imagine how, in any election in the world, with or without intention on the part of company employees, Google search results would fail to tilt toward one candidate. Google's search algorithm certainly has no equal-time rule built into it; we wouldn't want it to! We want it to tell us what's best, and the algorithm will indeed always favor one dog food over another, one music service over another, and one political candidate over another. When the latter happens ... votes and opinions shift.

Here are 10 ways—seven of which I am actively studying and quantifying—that Big Tech companies could use to shift millions of votes this coming November with no one the wiser. Let's hope, of course, that these methods are not being used and will never be used, but let's be realistic too; there's generally no limit to what people will do when money and power are on the line.

1. Search Engine Manipulation Effect (SEME)

Ongoing research I began in January 2013 has shown repeatedly that when one candidate is favored over another in search results, voting preferences among undecided voters shift dramatically—by 20 percent or more overall, and by up to 80 percent in some demographic groups. This is partly because

people place inordinate trust in algorithmically generated output, thinking, mistakenly, that algorithms are inherently objective and impartial.

But my research also suggests that we are conditioned to believe in high-ranking search results in much the same way that rats are conditioned to press levers in Skinner boxes. Because most searches are for simple facts (“When was Donald Trump born?”), and because correct answers to simple questions inevitably turn up in the first position, we are taught, day after day, that the higher a search result appears in the list, the more true it must be. When we finally search for information to help us make a tough decision (“Who’s better for the economy, Trump or Clinton?”), we tend to believe the information on the web pages to which high-ranking search results link.

As The Washington Post reported last year, in 2016, I led a team that developed a system for monitoring the election-related search results Google, Bing, and Yahoo were showing users in the months leading up to the presidential election, and I found pro-Clinton bias in all 10 search positions on the first page of Google’s search results. Google responded, as usual, that it has “never re-ranked search results on any topic (including elections) to manipulate political sentiment”—but I never claimed it did. I found what I found, namely that Google’s search results favored Hillary Clinton; “re-ranking”—an obtuse term Google seems to have invented to confuse people—is irrelevant.

Because (a) many elections are very close, (b) 90 percent of online searches in most countries are conducted on just one search engine (Google), and (c) internet penetration is high in most countries these days—higher in many countries than it is in the United States—it is possible that the outcomes of upwards of 25 percent of the world’s national elections are now being determined by Google’s search algorithm, even without deliberate manipulation on the part of company employees. Because, as I noted earlier, Google’s search algorithm is not constrained by equal-time rules, it almost certainly ends up favoring one candidate over another in most political races, and that shifts opinions and votes.

2. Search Suggestion Effect (SSE)

When Google first introduced autocomplete search suggestions—those short lists you see when you start to type an item into the Google search bar—it was supposedly meant to save you some time. Whatever the original rationale, those suggestions soon turned into a powerful means of manipulation that Google appears to use aggressively.

My recent research suggests that (a) Google starts to manipulate your opinions from the very first character you type, and (b) by fiddling with the suggestions it shows you, Google can turn a 50–50 split among undecided voters into a 90–10 split with no one knowing. I call this manipulation the Search Suggestion Effect (SSE), and it is one of the most powerful behavioral manipulations I have ever seen in my nearly 40 years as a behavioral scientist.

How will you know whether Google is messing with your election-related search suggestions in the weeks leading up to the election? You won’t.

3. The Targeted Messaging Effect (TME)

If, on Nov. 8, 2016, Mr. Zuckerberg had sent go-out-and-vote reminders just to supporters of Mrs. Clinton, that would likely have given her an additional 450,000 votes. I’ve extrapolated that number from Facebook’s own published data.

Because Zuckerberg was overconfident in 2016, I don't believe he sent those messages, but he is surely not overconfident this time around. In fact, it's possible that, at this very moment, Facebook and other companies are sending out targeted register-to-vote reminders, as well as targeted go-out-and-vote reminders in primary races. Targeted go-out-and-vote reminders might also favor one party on Election Day in November.

My associates and I are building systems to monitor such things, but because no systems are currently in place, there is no sure way to tell whether Twitter, Google, and Facebook (or Facebook's influential offshoot, Instagram) are currently tilting their messaging. No law or regulation specifically forbids the practice, and it would be an easy and economical way to serve company needs. Campaign donations cost money, after all, but tilting your messaging to favor one candidate is free.

4. Opinion Matching Effect (OME)

In March 2016, and continuing for more than seven months until Election Day, Tinder's tens of millions of users could not only swipe to find sex partners, they could also swipe to find out whether they should vote for Trump or Clinton. The website iSideWith.com—founded and run by “two friends” with no obvious qualifications—claims to have helped more than 49 million people match their opinions to the right candidate. Both CNN and USA Today have run similar services, currently inactive.

I am still studying and quantifying this type of, um, helpful service, but so far it looks like (a) opinion matching services tend to attract undecided voters—precisely the kinds of voters who are most vulnerable to manipulation, and (b) they can easily produce opinion shifts of 30 percent or more without people's awareness.

At this writing, [iSideWith](http://iSideWith.com) is already helping people decide who they should vote for in the 2018 New York U.S. Senate race, the 2018 New York gubernatorial race, the 2018 race for New York District 10 of the U.S. House of Representatives, and, believe it or not, the 2020 presidential race. Keep your eyes open for other matching services as they turn up, and ask yourself this: Who wrote those algorithms, and how can we know whether they are biased toward one candidate or party?

5. Answer Bot Effect (ABE)

More and more these days, people don't want lists of thousands of search results, they just want the answer, which is being supplied by personal assistants like Google Home devices, the Google Assistant on Android devices, Amazon's Alexa, Apple's Siri, and Google's featured snippets—those answer boxes at the top of Google search results. I call the opinion shift produced by such mechanisms the Answer Bot Effect (ABE).

My research on Google's answer boxes shows three things so far: First, they reduce the time people spend searching for more information. Second, they reduce the number of times people click on search results. And third, they appear to shift opinions 10 to 30 percent more than search results alone do. I don't yet know exactly how many votes can be shifted by answer bots, but in a national election in the United States, the number might be in the low millions.

6. Shadowbanning

Recently, Trump complained that Twitter was preventing conservatives from reaching many of their followers on that platform through shadowbanning, the practice of quietly hiding a user's posts without

the user knowing. The validity of Trump's specific accusation is arguable, but the fact remains that any platform on which people have followers or friends can be rigged in a way to suppress the views and influence of certain individuals without people knowing the suppression is taking place. Unfortunately, without aggressive monitoring systems in place, it's hard to know for sure when or even whether shadowbanning is occurring.

7. Programmed Virality and the Digital Bandwagon Effect

Big Tech companies would like us to believe that virality on platforms like YouTube or Instagram is a profoundly mysterious phenomenon, even while acknowledging that their platforms are populated by tens of millions of fake accounts that might affect virality.

In fact, there is an obvious situation in which virality is not mysterious at all, and that is when the tech companies themselves decide to shift high volumes of traffic in ways that suit their needs. And aren't they always doing this? Because Facebook's algorithms are secret, if an executive decided to bestow instant Instagram stardom on a pro-Elizabeth Warren college student, we would have no way of knowing that this was a deliberate act and no way of countering it.

The same can be said of the virality of YouTube videos and Twitter campaigns; they are inherently competitive—except when company employees or executives decide otherwise. Google has an especially powerful and subtle way of creating instant virality using a technique I've dubbed the Digital Bandwagon Effect. Because the popularity of websites drives them higher in search results, and because high-ranking search results increase the popularity of websites (SEME), Google has the ability to engineer a sudden explosion of interest in a candidate or cause with no one—perhaps even people at the companies themselves—having the slightest idea they've done so. In 2015, I published a mathematical model showing how neatly this can work.

8. The Facebook Effect

Because Facebook's ineptness and dishonesty have squeezed it into a digital doghouse from which it might never emerge, it gets its own precinct on my list.

In 2016, I published an article detailing five ways that Facebook could shift millions of votes without people knowing: biasing its trending box, biasing its center newsfeed, encouraging people to look for election-related material in its search bar (which it did that year!), sending out targeted register-to-vote reminders, and sending out targeted go-out-and-vote reminders.

I wrote that article before the news stories broke about Facebook's improper sharing of user data with multiple researchers and companies, not to mention the stories about how the company permitted fake news stories to proliferate on its platform during the critical days just before the November election—problems the company is now trying hard to mitigate. With the revelations mounting, on July 26, 2018, Facebook suffered the largest one-day drop in stock value of any company in history, and now it's facing a shareholder lawsuit and multiple fines and investigations in both the United States and the EU. Facebook desperately needs new direction, which is why I recently called for Zuckerberg's resignation. The company, in my view, could benefit from the new perspectives that often come with new leadership.

9. Censorship

I am cheating here by labeling one category “censorship,” because censorship—the selective and biased suppression of information—can be perpetrated in so many different ways.

Shadowbanning could be considered a type of censorship, for example, and in 2016, a Facebook whistleblower claimed he had been on a company team that was systematically removing conservative news stories from Facebook’s newsfeed. Now, because of Facebook’s carelessness with user data, the company is openly taking pride in rapidly shutting down accounts that appear to be Russia-connected—even though company representatives sometimes acknowledge that they “don’t have all the facts.”

Meanwhile, Zuckerberg has crowed about his magnanimity in preserving the accounts of people who deny the Holocaust, never mentioning the fact that provocative content propels traffic that might make him richer. How would you know whether Facebook was selectively suppressing material that favored one candidate or political party? You wouldn’t. (For a detailed look at nine ways Google censors content, see my essay “The New Censorship,” published in 2016.)

10. The Digital Customization Effect (DCE)

Any marketer can tell you how important it is to know your customer. Now, think about that simple idea in a world in which Google has likely collected the equivalent of millions of Word pages of information about you. If you randomly display a banner ad on a web page, out of 10,000 people, only five are likely to click on it; that’s the CTR—the “clickthrough rate” (0.05 percent). But if you target your ad, displaying it only to people whose interests it matches, you can boost your CTR a hundredfold.

That’s why Google, Facebook, and others have become increasingly obsessed with customizing the information they show you: They want you to be happily and mindlessly clicking away on the content they show you.

In the research I conduct, my impact is always larger when I am able to customize information to suit people’s backgrounds. Because I know very little about the participants in my experiments, however, I am able to do so in only feeble ways, but the tech giants know everything about you—even things you don’t know about yourself. This tells me that the effect sizes I find in my experiments are probably too low. The impact that companies like Google are having on our lives is quite possibly much larger than I think it is. Perhaps that doesn’t scare you, but it sure scares me.

The Same Direction

OK, you say, so much for Epstein’s list! What about those other shenanigans we’ve heard about: voter fraud (Trump’s explanation for why he lost the popular vote), gerrymandering, rigged voting machines, targeted ads placed by Cambridge Analytica, votes cast over the internet, or, as I mentioned earlier, those millions of bots designed to shift opinions. What about hackers like Andrés Sepúlveda, who spent nearly a decade using computer technology to rig elections in Latin America? What about all the ways new technologies make dirty tricks easier in elections? And what about those darn Russians, anyway? To all that I say: kid stuff. Dirty tricks have been around since the first election was held millennia ago. But unlike the new manipulative tools controlled by Google and Facebook, the old tricks are competitive—it’s your hacker versus my hacker, your bots versus my bots, your fake news stories versus my fake news stories—and sometimes illegal, which is why Sepúlveda’s efforts failed many times and why Cambridge Analytica is dust.

“Cyberwar,” a new book by political scientist Kathleen Hall Jamieson, reminds us that targeted ads and fake news stories can indeed shift votes, but the numbers are necessarily small. It’s hard to overwhelm your competitor when he or she can play the same games you are playing.

Now, take a look at my numbered list. The techniques I’ve described can shift millions of votes without people’s awareness, and because they are controlled by the platforms themselves, they are entirely noncompetitive. If Google or Facebook or Twitter wants to shift votes, there is no way to counteract their manipulations. In fact, at this writing, there is not even a credible way of detecting those manipulations.

And what if the tech giants are all leaning in the same political direction? What if the combined weight of their subtle and untraceable manipulative power favors one political party? If 150 million people vote this November in the United States, with 20 percent still undecided at this writing (that’s 30 million people), I estimate that the combined weight of Big Tech manipulations could easily shift upwards of 12 million votes without anyone knowing. That’s enough votes to determine the outcomes of hundreds of close local, state, and congressional races throughout the country, which makes the free-and-fair election little more than an illusion.

Full disclosure: I happen to think that the political party currently in favor in Silicon Valley is, by a hair (so to speak), the superior party at the moment. But I also love America and democracy, and I believe that the free-and-fair election is the bedrock of our political system. I don’t care how “right” these companies might be; lofty ends do not justify shady means, especially when those means are difficult to see and not well understood by either authorities or the public.

Can new regulations or laws save us from the extraordinary powers of manipulation the Big Tech companies now possess? Maybe, but our leaders seem to be especially regulation-shy these days, and I doubt, in any case, whether laws and regulations will ever be able to keep up with the new kinds of threats that new technologies will almost certainly pose in coming years.

I don’t believe we are completely helpless, however. I think that one way to turn Facebook, Google, and the innovative technology companies that will succeed them, into responsible citizens is to set upsophisticated monitoring systems that detect, analyze, and archive what they’re showing people—in effect, to fight technology with technology.

As I mentioned earlier, in 2016, I led a team that monitored search results on multiple search engines. That was a start, but we can do much better. These days, I’m working with business associates and academic colleagues on three continents to scale up systems to monitor a wide range of information the Big Tech companies are sharing with their users—even the spoken answers provided by personal assistants. Ultimately, a worldwide ecology of passive monitoring systems will make these companies accountable to the public, with information bias and online manipulation detectable in real time.

With November drawing near, there is obviously some urgency here. At this writing, it’s not clear whether we will be fully operational in time to monitor the midterm elections, but we’re determined to be ready for 2020.

Deaths And Potential Forced-Suicides:

Deaths of a suspicious nature -

All connected to suspects. 1000 times outside the odds-of-coincidence. Certainly many are accidents but forensic math says a large number of them are murders. The family and friends of many of these deceased persons have contacted our legal team and stated that they have “evidence of murder”. Our staff and Alliance members personally knew many of these people and were told, by some of them, in advance of their deaths, of threats on their lives for whistle-blowing. Who would you kill to try to control over six trillion dollars of federal funds for your bank account and stock market accounts and get to run the White House?

The Snowden Leaks began the Age of Leaks. Because of the leaks that are continuing through today, 80% of conspiracy theorists charges have been proven to be true.

Every one of these people are dead. That is a fact!

Every one of these people had knowledge of the suspects. That is a fact!

Many investigators have provided evidence which proves that these people may have been able to have the suspects arrested if they had been allowed to give testimony in court. That is a fact!

Partial List #2 – Revision 2.09

- Daphne Caruana Galizia, 53 - dubbed a "one-woman WikiLeaks" - was killed as she was driving near the village of Bidnija in northern Malta. Car bomb kills journalist behind Panama Papers offshore tax evasion investigation 'days after she received threats to her safety'. She had seen leaked documents that connected the suspects.

- James D Johnston, GM lobbyist/key witness. Had was connected to the Dept. of Energy car funding scheme

- Rajeev Motwani taught Google how to Google. Suddenly, in perfect health, he was found floating face-down, dead, in his Silicon Valley swimming pool. It helps certain people that he can no longer talk.

- Gary D. Conley was the CleanTech competitor to, and whistle-blower on, the suspects. He was suddenly found with a bullet in his head behind Beale Air Force base. It helps certain people that he can no longer talk.
- Google programmer Forrest Hayes, who worked on Google search engine rigging, was suddenly found dead with the story that “he was overdosed by a Google hooker on his sex yacht”.
- Google associate and Tesla Investments founder Ravi Kumar was also killed by a hooker.
- Deep Google investor VC liaison and husband of Facebook executive Cheryl Sandberg, Dave Goldberg was suddenly found dead with a hole in his head. The “official” story is that he was the first person in history to be killed by his treadmill.
- David Bird was the Wall Street Journal energy reporter who was working on a story that involved Cleantech energy connections of some of the suspects. He was working on a story about who controlled the modern energy industry and cleantech. He went for a walk and was found a long time later, dead, floating in a pond. It helps certain people that he can no longer talk.
- One Andrew Breitbart was a famous blogger, who railed on the web about the political manipulations of the suspects. Suddenly, he had a "heart attack" in his shower and died. It helps certain people that he can no longer talk on the blogs. Died of a massive [heart attack](#), walking outside late at night, alone, in the dark approximately one week before he was to [produce tapes](#) of Obama's extremist activities in college. More speculation: [Breitbart: "Wait 'Til They See What Happens March 1st"](#), [Breitbart's Footage Shows Obama 'Palling Around' With Terrorists](#)..... day Andrew Breitbart's cause of death was finally made public. Medical examiners in Los Angeles [are investigating the possible poisoning death.....Conspiracy theorists cry foul after Andrew Breitbart's 'coroner' dies of arsenic poisoning-Police Debunk Theories Linking Breitbart, L.A. Coroner Tech Deaths ; No Answers in Death of Technician Linked to Andrew Breitbart: Killed by high amounts of arsenic in his system ; Breitbart's Coroner Murdered. News From LA](#)

- Karl Slym, with Tata Motors was involved in a car deal with some of the suspects for one of the biggest Indian auto-makers. Suddenly he was a stain on the sidewalk, accomplished by his fall from the top of a skyscraper hotel. It helps certain people that he can no longer talk.

- Doug Bourn, The senior electrical engineer at Tesla (Google's covert partner), Andrew Ingram of Palo Alto, a top systems electrical engineer at Tesla; and Brian M. Finn the senior manager of interactive electronics, at Tesla, had deep knowledge of financial misdeeds and technical cover-ups at Tesla Motors. They were key parts of the Tesla operation. For some reason, they all got into a private airplane, in perfect health, and then the airplane plowed into the ground, killing all three at once. It helps certain people that they can no longer talk. They wrote, and helped describe, in Tesla's own federal patent filings, the fact that Tesla's batteries would kill you, maim you and/or burn your house down. Tesla did not realize this when they paid the federal patent filing fees. When Tesla, later realized this, they were forced to give all of their patents away for free. These three senior engineers had deep inside knowledge of the Tesla Motors operations. Their aircraft suffered an "Engineering failure".

- The health director who approved the release of President Obama's birth certificate has died in a plane crash: Loretta Fuddy. She was one of the few people who could confirm data on the certificate.

- Stanley Meyer - Hydrogen car developer whose technology would have obsoleted Tesla Motors lithium ion battery

- Danny Lewin, Creator of Bulk Internet at Akamai. The Architect and Builder of the Internet Tracking System- Plane Crash 9/11

- John Wheeler - Washington DC- Drugged, escaped, recaptured, murdered. former presidential and Pentagon aide John Wheeler III was [found in a Delaware garbage dump. Wheeler's cell phone discovered - Cause of death released in Wheeler case, blunt force trauma -- Wheeler's cell phone found in a taxi -- His family wants information - John Wheeler was assassinated by a hitman in a targeted killing, his widow has claimed - Who killed Jack Wheeler? ; John Wheeler III Murdered for Threatening to Expose US Military Test of Poison Gas?](#)

- Ashley Turton, wife of White House liaison Daniel Turton. wife of the Obama administration's House of Representatives liaison, Dan Turton, was found dead in a burning car Monday morning, Roll Call and other news outlets are reporting. Fire officials said it appeared the car crashed as it was pulling in or out of the garage behind a rowhouse in the Capitol Hill neighborhood of Washington, D.C., at about 5 a.m. Neighbors dialed 911 after spotting the fire. The body was discovered after fire crews doused the blaze. The fire also charred part of the garage. Nobody in the house was injured, fire officials said.

Ashley Turton worked as a lobbyist for the utility giant Progress Energy, according to Politico. She was a former staffer for U.S. Rep. Rosa DeLauro, D-Conn. [The Rahm Emanuel Connection to the Deceased Ashley Turton](#), -- [The ATF investigates - Ashley Turton Crashed Under the Influence](#)

Don Adams

Died January 7, 1997

Long before Whitewater's land flips made the Clinton's circle of friends rich, many of the same players had been involved in a similar land swindle in Branson. Don Adams was a lawyer in Arkansas who got involved trying to help the people who were being swindled out of their life savings.

[Click for full size Harrison Daily Times article of Don Adams missing.](#)

[Click for full size Springfield News Ledger article of Don Adams found dead.](#)

The successor attorney for Don left for parts unknown about a year after Don was killed.

John Ashe

Former United Nations General Assembly President

Died: June 22, 2016

Initially reported as having died from a heart attack, John's throat had obviously been crushed. At that point the official story changed to him accidentally dropping a barbell on his own throat (the plot line from the episode "An Exercise in Fatality" from the TV series "Columbo.") crushing his larynx.

Ashe was about to begin trial for a bribery charge involving Chinese businessman Ng Lap Seng, who had been implicated but not charged in the 1996 "China-gate" scandal for funneling illegal donations to Bill Clinton's re-election fund through Arkansas restaurant owner Charlie Trie. Ashe was supposed to testify about Hillary's links to Ng Lap Seng later the same day he died.

Robert Bates

Barry Seal's aircraft mechanic at Mena

Died: March 29th, 1995

Robert Bates supposedly died of an "overdose of mouthwash". Regarded by local authorities as an obvious homicide.

Gandy Baugh

Attorney representing Mr. Lassater in a case concerning alleged financial misconduct.

Died: January 8, 1994

Died in an alleged suicide by jumping out of a window of a multi-story building. - Mr. Lassater was a close associate of Gov. Clinton, and was later indicted on drug related charges, among other things. Baugh's law partner was "suicided" one month later on February 9, 1994.

Admiral Jeremy Boorda

Chief of Naval Operations

Died May 16th, 1996

Boorda supposedly went home for lunch and decided to shoot himself in the chest twice, using two guns, rather than be interviewed by Newsweek magazine that afternoon.

Explanations for Boorda's suicide focused on a claim that he was embarrassed over two "Valor" pins he was not authorized to wear.

Former CNO Admiral Elmo Zumwalt said on the May 17 Larry King Live show that Admiral Boorda was not only authorized to wear the "V" on his medals, but that he had personally authorized him to do so when he was serving as Commander Naval Forces Vietnam.

When it turned out that Boorda was entitled to those decorations, blame shifted to stresses over the down sizing of the Navy, and even (Washington Times) the adverse affect that feminism was having on the Navy's morale.

Boorda supposedly left two suicide notes, neither of which was released.

On Thursday, June 25, 1998, Navy Secretary John Dalton formally acknowledged that Boorda had been entitled to wear the decorations.

So, like Brown, and like Foster, the proximate cause for the "suicide" turns out to be fraudulent.

Ron Brown

Former Chairman, DNC; Commerce Secretary

Died: May 3, 1996

Ron Brown died along with 39 other people when the T-43 (a converted 737 used by the Air Force) carrying the group on a trip to Bosnia crashed while approaching the Dubrovnik airport. On the verge of being indicted and having stated publicly his willingness to make a deal with prosecutors, Ron Brown's death brought to an end his ability to testify. The very next day, Ron Brown's personal lawyer was murdered in a drive-by shooting. A few days later, the Air Traffic Controller who had been in charge during the aircraft crash was found dead and declared a suicide.

On leaving Ron Brown's funeral, President Bill Clinton was seen laughing and joking ... until he saw the camera, then he went into his sad act!

James Bunch

Influential Texan

Exact date of death unknown

Died from a gunshot "suicide", similar to Vince Foster. - Was discovered to have a "little black book" containing the names of many influential persons in Texas and Arkansas who visited certain prostitutes.

Eric Butera

Witness

Died: December 4, 1997

An informant who came forward offering information regarding the murder of White House intern Mary Mahoney. He was then sent into a known crack house to make an undercover buy for the police and was beaten to death. **His mother was awarded \$100 million in compensation**, but a Federal Judge later **slashed it to just \$1 million**.

Caetano Carani

Witness to a shooting near the White House.

Died: November 11, 1994

Suffered an unknown infection just before he was to testify. Death attributed to "apparent" food poisoning.

Danny Casolaro

Journalist

Died: August 10, 1991

Casolaro had been working on a project he called "The Octopus." Casolaro had started his investigation over the Justice Department's theft of a software package called PROMIS from a company called Inslaw.

PROMIS stood for "Prosecutors Management Information System" and it was a law enforcement database system that included a feature unique for the time. This was a module that could be programmed to automatically access other databases, in order to present to the user a single picture of financial transactions or suspects from multiple sources. This made it a powerful spying tool, and the US modified their version to include a back door, then made gifts of the software to other governments.

All this was happening at the same time as the CIA's clandestine gun and drug running operation to supply the Nicaraguan Contras with untraceable weapons. A totally illegal operation (which violated the Boland Amendment and the Logan act) the US end of the smuggling pipeline was located in [Mena, Arkansas](#) under the protection of then-governor Bill Clinton. The arming of the Contras was funded by smuggling vast quantities of cocaine into the US (a violation of drug laws) and then laundered through various banks, land flips, and a state agency, the Arkansas Development Finance Authority, created by Webster Hubbell and signed into law by Bill Clinton.

The shoot down of one of the CIA planes by Nicaragua and the capture of CIA asset Eugene Hasenfus blew the cover off of the operation and it became known as the Iran-Contra affair. During the Congressional hearings into the scandal, attention was focused on the gun-running, and all mention of the CIA's cocaine flowing into the US was kept from the public eye by the Committee chairman, Hawaii's Senator Daniel Inouye (a fixture in Hawaii going back to the CIA's smuggling of heroin from Vietnam back to the US).

Casolaro apparently stumbled over the existence of a vast network of government operatives and politicians all linked together by the vast wealth acquired from the selling of CIA cocaine in the US and was working on a book exposing the government-sanctioned drug running when he was found in a bathtub in a hotel room, his wrists both deeply slashed in a manner that the pathologist declared did not appear to have been done by Danny himself. In particular, the deep cuts severed the tendons of the fingers, which would have made it impossible for Danny to slash his other wrist with the now useless hand.

Despite this, the official verdict was suicide, although none of Danny's friends and families believed that, especially those who had been direct witnesses to the many death threats he had received.

When found, the large accordion file of the notes for his new book had disappeared from his hotel room.

Berta Caceres

Human Rights Activist

Died: March 3, 2016

Killed while sleeping in her home in La Esperanza, Honduras. Berta Caceres had named Hillary Clinton as responsible for the Honduran coup which toppled democratically elected President Manuel Zelaya. Since the coup, Honduras has become one of the most violent places in the world. Growing awareness of Hillary's role in Honduras became a serious liability during Hillary's 2016 campaign.

William Colby

Director of Central Intelligence (ret)

Died: April 27(?), 1996

William Colby had been the DCI from 1973 to 1976 under Nixon and Ford.

At age 76, Colby had found a new career and had just started writing for Strategic Investment at the time of his death. This had worried many insiders in the intelligence community who felt that Colby had already divulged too many of the CIA's secrets in the preceding years. Indeed, his dismissal by Ford because of his over-cooperation with Congressional investigations into CIA wrongdoing. It was Colby who had revealed to Congress the plans to kill Fidel Castro, the spying on American citizens (in direct violation of the CIA charter) and the conducting of biological tests by the CIA on unsuspecting citizens. George Bush replaced him.

According to the original CNN report, Colby was reported missing by neighbors who "recovered" his canoe, by one story from under the dock at Colby's house, by another report, 1/4 of a mile downstream from Colby's home.

Colby was by all report a methodical, tidy man, yet police found his home unlocked, his computer on, and a partly eaten dinner on the table. The official story is that Colby just put down his fork and decided to drop everything and go canoeing.

Colby at 76 was still a world-traveler and consultant to many corporations. He recently became an editor of an important financial newsletter, "Strategic Investment," which covered the Vince Foster "suicide" in detail. Its editors hired three renowned handwriting experts to investigate Foster's suicide note, which hadn't been found when his briefcase was first searched, but later materialized, torn into pieces, with no fingerprints on any of the pieces. Upon comparing this document with others of Foster's writings, these experts declared it was a forgery, and a not very good one at that.

Colby had old enemies as well as new, with plenty of motives for his extermination. He was in charge of the infamous Operation Phoenix during the Vietnam War, in which more than 20,000 South Vietnamese citizens -- supposedly Vietcong sympathizers -- were rounded up, tortured and executed. In

the 1970s he opened some of the secrets of the CIA to Congress: "Colby insisted on going public about the agency's role in tapping the telephones and opening the mail of Americans; plotting the assassination of Fidel Castro, and using human guinea pigs for mind-control experiments involving LSD," the Times reports.

On Monday, May 6th, Colby's body was found just 20 yards from where his canoe had been recovered, in an area that had been thoroughly searched several times by helicopters and search teams.

Most notable about the body was the absence of a life jacket, which according to his wife, Colby always wore on the water.

As has since been proven to have happened in the [JFK Jr. case](#) false stories were being deliberately planted in the media, including one quoting Mrs. Colby herself as having been told by William Colby by phone that he was going canoeing. Mrs. Colby denied any such story. The week that he died, Colby was scheduled to meet with the Disclosure Project.

Suzanne Coleman

Had affair with Clinton when he was attorney general of Arkansas.

Died: February 15, 1977

Died of "suicide" with gunshot wound to the back of her head. No autopsy allowed. Was 7 months pregnant at time of her death. She had told friends it was Bill Clinton's child. (See Danny Williams). She was 26 at the time of her death.

Gregory Collins

Witness to the Train Deaths

Died: January 1989

Greg had information on the Ives/Henry deaths. He died from a gunshot blast to the face. Declared a suicide.

Keith Coney (or Koney)

Witness to the Train Deaths

Died: May 1988

Keith had information on the Ives/Henry deaths. Died in a motorcycle accident in July 1988 while being chased by a car. Ruled a traffic accident.

L.J. Davis

Reporter investigating Clinton scandals. Attacked at his hotel room in Little Rock. His notes were stolen.

David Drye

Died 8/1999. Pat Matrisciana, owner of "Jeremiah Films" (which produces such vides as The **Clinton Chronicles**), and David Drye planned a trip to Washington DC by Private plane. At the last second, pat had to cancel and David left without him, dying when the plane crashed.

Daniel A. Dutko

C-chairman of Leadership 2000

Died: July 27, 1999

Daniel A. Dutko, 54, was the co-chairman of Leadership 2000, the Democratic National Committee's main fund-raising effort. He held many other high-level political positions, including vice chairman of finance for Clinton-Gore in 1995; finance chairman of the 53rd inaugural ball; and vice chairman of finance for the DNC in 1996 (when the Chinese money poured in). Attributed to a bicycle accident in which it's claimed he struck his head on the concrete twice.

Klaus Eberwein

Haitian government official

Died: July 14, 2017

Just says before Eberwein was due to appear before the Haitian Senate Ethics and Anti-Corruption Commission where he was widely expected to testify that the Clinton Foundation misappropriated Haiti earthquake donations from international donors, he was found dead in a Miami hotyel of a gunshot to the head. Ruled a suicide. Eberwein, who had acknowledged his life was in danger, was a fierce critic of the Clinton Foundation's activities in the Caribbean island, where he served as director general of the government's economic development agency, Fonds d'assistance économique et social, for three years.

Five Navy aviators

Clinton bodyguards/escorts

(names not determined) Died: 3/26/93 - all died in a crash of an E-2C Hawkeye in Italy. The crash occurred shortly after the plane was "waved off" from a landing attempt on the Carrier Roosevelt, due to a "foul deck". - All five men had been Clinton's escorts during Clinton's visit to the Roosevelt 2 weeks prior. Three other men, who had flown Clinton to the Roosevelt for that visit also died later in a helicopter crash.

Hershell Friday

Attorney and Clinton fund raiser.

Died: March 1, 1994

Killed when his plane exploded. Cause unknown.

Vincent Foster

Deputy White House Counsel

Died: July 20, 1993

Found dead in Ft. Marcy Park in Washington, DC, of a supposed suicide by gunshot. A suicide note was supposedly found a few days later, torn into several pieces, in his briefcase, after his office had been entered by White House staff and materials removed. The "suicide" note, (leaked despite official efforts to keep it from view) has since been revealed to be a forgery.

The gun which he supposedly used to kill himself was reported to be still in his hand, but the person who first found the body reports that there was no gun at that time. Many irregularities surround the death and the investigation of it. For one thing, neither Foster's fingerprints or blood were on the gun he supposedly inserted into his mouth and fired. There was no blood on Foster's hands.

Foster was also from Hope, Ark., like Clinton, and also worked for the Rose Law firm. Foster had intimate knowledge of the Clintons' personal finances. Foster was involved in an investigation of their finances, and reportedly made a phone call to Hillary Clinton, in Los Angeles, just hours before his death. Foster had been called to testify to Congress about the records Hillary refused to turn over. Another possible motive for the murder relates to the Clinton Presidential Blind Trust, being prepared by Foster, but six months late. Testimony during the Whitewater hearings suggests the trust was fraudulent, with the Clintons retaining control over much of their finances, in order to profits from inside information.

Recently, the signed report of M.E. Dr. Donald Haut was uncovered at the National Archives, proving that Foster had a previously unreported gunshot wound to his neck.

Finally, an FBI memo surfaced dated the day after the date of the official autopsy, in which the pathologist informed the FBI that there was NO exit wound.

Aldo Franscoia, Secret Service Agent

Cpt. Kevin N. Earnest, Aircraft Commander

Cpt. Kimberly Jo Wielhouwer, Pilot

2Lt. Benjamin T. Hall, Navigator

SSgt. Michael J. SmithJr., Loadmaster

Sr. Airman Rick L. Merritt, Flight Engineer

SSgt. Michael R. York, Loadmaster

Sr. Airman Billy R. Ogston, Crew Chief

Airman Thomas A. Stevens, Loadmaster.

Died: August 18, 1996

Killed when the C-130 carrying the Presidential Limos crashed near Jackson Hole, Wyoming. All nine people on board a White House support plane were killed late Saturday (10:48pm MDT), when it crashed into Sheep Mountain (also known as Sleeping Indian Mountain) near Jackson Hole Wyoming. The aircraft was en route from Jackson Hole to John F. Kennedy International airport. The Air Force Lockheed Martin C-130 Hercules transport aircraft was carrying a presidential vehicle and many pieces of luggage, all related to the president's vacation (50th birthday celebration in the Grand Tetons). President Clinton said Sunday afternoon that he was told the pilot was attempting to return to the Jackson Hole airport when it crashed (CNN news report). The Air Force reported finding no evidence of an in-flight mechanical emergency after examining the flight data and flight voice recorders and could not find evidence that the pilot radioed mechanical trouble before crashing into the mountainside as reported by the White House. The victims included 8 crew members and one Secret Service agent. The aircraft and crew were stationed out of Dyess Air Force Base.

Four Marine Pilots

Marine One Presidential Helicopter pilots.

Died: April 8, 2000

(names not determined) - all died (with 15 others) in a crash of a V-22 Osprey near Tucson. Witnesses reported the craft burst into flames in mid-air, then crashed.

Kathy Ferguson

Witness

Died: May 10, 1994

Kathy Ferguson supposedly committed "suicide" May 10, 1994 when she shot herself in her living room. Kathy's ex husband was Danny Ferguson, who was the Arkansas trooper who said he escorted Paula Jones to Bill Clinton's hotel room. Kathy often told friends and co-workers about how Bill had gotten Danny to bring women to him and stand watch while they had sex. Danny Ferguson was a co-defendant along with Bill Clinton in Paula Corbin Jones's sexual harassment suit. Kathy Ferguson was a corroborating witness for Ms. Jones.

Oddly, next to Kathy's body were her packed bags, as if she was expecting to be going somewhere.

Duane Garrett

Radio Host and Al Gore fund raiser.

Died: 7/26/95

A lawyer and a talk show host for KGO-AM in San Francisco, Duane was the campaign finance chairman for Diane Feinstein's run for the senate, and was a friend and fundraiser for Al Gore.

According to Garrett's lawyer, Garrett was under investigation for defrauding investors in Garrett's failed sports memorabilia venture. There was talk of a deal to evade prosecution. On July 26th, Garrett canceled an afternoon meeting with his lawyer because he had to meet some people at the San Francisco airport.

Three hours later he was found floating in the bay under the Golden Gate Bridge.

Cpl Eric S. Fox

Crewman for Marine One, the Presidential Helicopter.

Died: March 22, 1999

Shot in the head, and declared a suicide.

Carlos Ghigliotti

Thermal Imaging Expert

Died: April 28, 2000

Carlos Ghigliotti: 42, was found dead in his home just outside of Washington D.C. There was no sign of a break-in or struggle at the firm of Infrared Technology where the badly decomposed body of Ghigliotti was found. Ghigliotti had not been seen for several weeks.

Ghigliotti, a thermal imaging analyst hired by the House Government Reform Committee to review tape of the siege at Waco, Texas, said he determined the FBI fired shots on April 19, 1993. The FBI has explained the light bursts on infrared footage as reflections of sun rays on shards of glass or other debris that littered the scene.

Judi Gibbs

Penthouse model, and call girl

Died: January 3, 1986

Judi Gibbs (along with her sister Sharon) appeared in the December 1979 issue of Penthouse, and later worked at a bordello in Fordyce, near Mena, Arkansas which also ran a blackmail operation with photos taken of the customers with their girls. According to the Gibbs family, Bill Clinton was a regular customer of Judi, and there were photos of him having sex with her that threatened his Presidential campaign! While cooperating with law enforcement in a drug investigation, Judi died when her house burned down. No cause for the fire was found. Judy had called the fire department to report the fire, but her body was found on the floor in front of a ground floor window, near a door that would have allowed her escape. In a sworn statement, Clinton bodyguard Barry Spivey related how he had been with the governor when the governor's plane had flown over Judi Gibb's house and Clinton had shown Judi's penthouse photos on the plane and pointed out the house.

Paula Grober

Clinton's speech interpreter for the deaf.

Died: December 9, 1992

Died in a one-car accident with no known witnesses. Her body was thrown 33 feet from the car, indicating a very high speed. A very attractive women, Paula traveled extensively with Clinton from 1978 until her death. Clinton, through a spokesman, called Grober's death "a great personal loss." He also said, "Hillary and I extend our sincere sympathy to Paula's family. I had the privilege of working with her over many years."

Staff Sgt. Brian Haney

Marine Sgt. Tim Sabel

Maj. William Barkley

Capt. Scott Reynolds

Clinton bodyguards

Died: May 19, 1993

All four men died when their helicopter crashed in the woods near Quantico, Va. - Reporters were barred from the site, and the head of the fire department responding to the crash described it by saying, "Security was tight," with "lots of Marines with guns." The Marines seized a videotape made by a firefighter. All four men had escorted Clinton on his flight to the carrier Roosevelt shortly before their deaths.

Michael Hastings

Journalist for Rolling Stone

Died: June 18, 2013

Michael Hastings died in a highly suspicious single-car accident. He had told friends that he was afraid for his life following stories he had written which were critical of Secretary of State Hillary Clinton. One of the emails leaked during the 2016 Democratic Convention confirmed that Hillary had received Hastings' damning investigative report of the attack on the Benghazi consulate 5 months before his death.

Stanley Heard

Chairman, National Chiropractic Health Care Advisory Committee

Steve Dickson

Counsel to Mr. Heard

Died: September 10, 1993

Both died in a plane crash outside Dulles airport, after their aircraft, rented after Heard's personal craft developed troubles, crashed while attempting an emergency landing after reporting a fire on board. Let's repeat that. They took off in a plane. It developed problems. They got it back to the airport. They rented a new plane. They took off in the new rented plane and IT developed a problem. On the way back to the airport it crashed. - Heard, in addition to serving on Clinton's advisory council, also personally treated Clinton's mother, stepfather, and brother.

John Hillyer

NBC and freelance cameraman

Died: 1996

Hillyer passed away in a Dentist's office from unknown causes, despite being very health-conscious and in good physical condition. Declared a heart attack. Was working on an investigation into Mena and assisted with the "Circle of Power," and "Clinton Chronicles." Some time after his passing, his widow recalled her husband saying he felt he could be in danger.

Stanley Huggins

Partner in Memphis law firm

Died: June 23, 1994

Investigating Madison Guaranty. Reported to have succumbed to viral pneumonia (See attack on Russel Welch). His 300-page report has never been released. Stanley had been at a Cotton Carnival Party on a Friday night. He was supposed to escort his wife all week during the 7 day event, but told her he couldn't as something important was going down. He has recently left the law firm in Little Rock where Hillary C worked and set up a small office in Memphis. On that Friday night I saw Stan and spoke to him briefly. He seemed extremely nervous & about to jump out of his skin. The word circulated throughout the party that he had been involved in some secretive issue that was under the microscope. Soon after that we were told by his wife that he had flown up to a NE University to give a speech on a Saturday. He checked into the provided dorm room, by the university employees that said he looked fine. When they called up to his room later in the day he didn't answer the phone, so they went to check on him and found him dead. The death was declared due to viral pneumonia. His wife has tried to get the hospital records, but they were sealed by Janet Reno under presidential orders of Clinton. Over that weekend his Memphis office was broken into and the only noticeable thing taken were his files. His 300 page report was never released.

Sandy Hume

Journalist

Died: February 2, 1998

On Sunday, February 22nd, 1998, Sandy Hume, the 28-year-old son of journalist Britt Hume, was reportedly found dead in his Arlington, Virginia home. Aside from the statement that this was an "apparent" suicide, there remains in place a total media blackout on this story, possibly out of concern

that the actual facts will not withstand public scrutiny. Indeed, it was reported in Associated Press that the Arlington Police were not responding to any inquiries.

Hume was a reporter for The Hill magazine, newspaper about Congress for Congress, and had broken a major story in 1997 regarding the friction between House Speaker Newt Gingrich and a faction led by Representative Paxon (who announced his resignation just 24 hours after Hume's death).

In addition, Sandy Hume had just joined the staff at Fox TV News and was just three weeks into a job that represented the pinnacle of his young career. Oddly enough, aside from echoing the one Associated Press story, the Fox News website has ignored the death of its newest commentator.

Sandy already had a reputation for getting the story that nobody else wanted to look at. It is worth noting that his death came hard on the heels of reports that "a reporter" was about to break a story confirming the White House's use of investigators to dig up dirt on critics.

It has recently been confirmed that the man who performed the as-yet-unreleased autopsy is none other than Dr. James C. Beyer, who has a record of concealing homicides behind a ruling of suicide.

Kenneth Starr's "suicidologist" Dr. Alan L. Berman has waded in again and as he did in the Foster death ruled it "100% certain that this is a suicide and can be nothing else".

Kevin Ives & Don Henry

Witnesses

Died: August 23, 1987

Initial cause of death was claimed to be the result of passing out on a railroad track in Arkansas after smoking twenty marijuana cigarettes. This ruling was reported by the State medical examiner **Fahmy Malak**, and supported by Sheriff Jim Steed, whose "thorough" investigation of the crime scene left one of the boy's foot sitting in the open for two days! In April 1988, Kevin's body was exhumed, and another autopsy was performed, this one by Atlanta medical examiner Dr. Joseph Burton who discovered that Kevin died from a crushed skull prior to being placed on the tracks. Don Henry's body was exhumed and discovered to have been stabbed in the back prior to being placed on the tracks. Governor Bill Clinton excused Fahmy Malek's "errors" saying that Malek was "tired and stressed out." **Reports indicate that Ives & Henry might have stumbled upon part of the Mena drug operation, specifically a drop site in the area of Bauxite and Alexander, Arkansas. The police chief of Alexander, John Brown, acknowledged he obtained a taped confession from one of the murderers of the two boys, which was suppressed at the request of the FBI!**

Jean Duffey headed up Arkansas' 7th District drug task force in 1990. She was never allowed to conduct a thorough investigation of drug running in Mena or any possible connection to the train

deaths. Her task force and a federal grand jury were shut down after they started examining corruption involving public officials.

Dan Harmon was a local government official, the prosecuting attorney for Saline, Grant, and Hot Springs counties in 1979 and 1980 and then again from 1991 through 1996. He was convicted in June of 1997 on drug, racketeering, and extortion charges and has started serving eight years in prison. In January 1991, long before his drug offenses became public knowledge, Harmon convinced a judge to subpoena evidence obtained by Jean Duffey's task force -- evidence gathered against him and other public officials. Ms. Duffey refused to honor the subpoena, fearing for the lives of witnesses (many of whom did turn up dead) and fled the state when a warrant was issued for her arrest.

Gary Johnson

Witness

Attacked: June 26th, 1992

Beaten near death and left for dead. Someone in the Clinton organization sent 3 goons to beat up and almost murder Gary Johnson, who was Gennifer Flowers' neighbor. Gary Johnson had a security camera installed at his condominium and by chance he had many tapes of Bill entering Gennifer's condominium while governor and married to Hillary). Gary's tapes were taken.

John Jones

Julian Assange's lawyer

Died: April 18, 2016

John Jones, QC, was killed when struck by a commuter train on his way to work. The police immediately declared the death as non-suspicious. The Q.C. initially said it was not suicide. Great Britain has the highest per-capita presence of surveillance cameras of any nation in the world, yet no video has been forthcoming as to just how Jones wound up in front of that train. John Jones was working to prevent the extradition of Julian Assange to the United States. Assange and WikiLeaks have produced some of the most damaging information about Hillary Clinton's scandals.

[John F. Kennedy Jr.](#)

Potential Candidate for Senator from New York.

Died: July 16, 1999

Within days of an NBC Dateline story hinting at a possible run for the Senate seat currently assumed to be the property of Hillary Clinton, JFK Jr. and his wife and sister-in-law died when the Piper Saratoga II TC JFK Jr. was piloting crashed in to the ocean just short of Martha's Vineyard. The NEWSWEEK issue for the following Monday, which NBC Dateline had reported would announce JFK Jr's candidacy, was yanked from distributors and destroyed.

Even before the wreckage of the plane had been found, the media was saturated with news stories declaring the weather to have been very hazy (the weather was VFR conditions, and 8 mile visibility, plus weather radar and witnesses on Martha's Vineyard all reported clear skies) making it impossible for JFK Jr. to know which way was up (he also had working instruments in the aircraft).

As was the case when **TWA 800** was shot down, the United States Navy took control of the crash site, ordering an unprecedented 5 mile wide no-fly zone while the wreckage of the aircraft was recovered and taken to a military base.

Reporters **Cindy Adams** and **Andrew Goldman** have documented the planting of false information about JFK Jr. in the media in the days following his crash. The feeding of false information to the press proves there is a cover-up. The existence of a cover-up is why JFK Jr. gets an entry on the Dead Bodies List.

According to some reports, Mrs. Kennedy was pregnant.

Jordan Kettleison

Witness to the Train Deaths

Died: June 1990

Kettleison had information on the Ives & Henry deaths. He was found shot to death in the front seat of his pickup.

Johnny Franklin Lawhon, Jr.

Witness

Died: March 29, 1998

In the spring of 1997, a tornado ripped through some junked cars at Johnny's transmission and opened up the trunk of a car that proved to have a box of Whitewater records in it, including a copy of a \$27,000 cashiers check drawn on Madison and payable to Bill Clinton. Johnny Franklin Lawhon, Sr. realized what he was looking at and turned the box of documents over to the FBI.

According to police, Lawhon Jr. (the son) and a friend hit a telephone pole at a high rate of speed after their car had become airborne and left the road. They had driven less than 1/4 of a mile at the time of the accident.

This manner of death is similar to the single vehicle accidents that killed Paula Grober, and Neil Moody.

Shawn Lucas

ATTORNEY

Died: August 2, 2016

On July 3, 2016, Shawn Lucas and filmmaker Ricardo Villaba served the DNC Services Corp. and Chairperson Debbie Wasserman Schultz at DNC's headquarters in Washington, D.C., in the fraud class action suit against the Democrat Party on behalf of Bernie Sanders supporters. This was before Wikileaks released documents proving the DNC was working against the Sanders campaign during the 2016 primary.

Shawn was found dead by his girlfriend. He had been in perfect health and did not do drugs. The authorities are refusing to disclose the cause of death even after three weeks. Meanwhile, the DNC is trying to delay the lawsuit until after the November election by saying Lucas did not "properly" serve the papers ... with Lucas conveniently unable to testify on his own behalf.

Mary 'Caity' Mahoney

White House Intern

Died: July 6, 1997

An attractive 25-year-old woman, Mary was a former White House Intern for Bill Clinton working as the Assistant Manager at a Starbuck's Coffee shop in Georgetown.

In the pre-trial publicity surrounding Paula Jones lawsuit Mike Isikoff had dropped hints that a "former White House staffer" with the initial "M" was about to go public with her story of sexual harassment at 1600 Pennsylvania. Just days later, gunmen entered the Starbuck's while the crew was cleaning up after closing.

Mary's two associates, Aaron Goodrich, 18 and Emory Evans, 25, were taken to a room and shot. Mary herself had five bullets in her, from at least two different guns, most likely with silencers. A total of ten shots were fired; none of them heard by neighbors in the densely populated Georgetown section.

Mary was shot in the chest, her face, and in the back of the head. Someone wanted her very dead. Or to send a message.

Even though more than \$4000 remained in the store, the police have categorized the triple murder as a robbery, even as they acknowledge the "execution style" killings.

There was no sign of forced entry, which means that either Mary or one of the employees let the killers in (at least one hour after closing). That means that the killers included at least one person known to the victims.

One report is that the Starbucks was still locked when the bodies were found the next morning. Robbers don't bother locking doors.

George Stephenopolis, Monica Lewinsky, and Chelsea Clinton were all regulars at the Starbucks.

Carl Cooper, the man charged with the Starbucks murders on the basis of a confession has now recanted that confession, claiming that it was obtained under coercion (not unlike that of James Earl Ray).

A affidavit filed by NOAA's Sonya Stewart, confirms that the Department of Commerce was selling trade mission seats in exchange for campaign donations, and illegally blocking FOIA requests. Named in the affidavit as the White House staffer directly connected to this obstruction was Doris Matsui. Doris's assigned intern during this period was Mary Mahoney.

Lieutenant General David J. McCloud

Commander of Alaskan Command, 11th Air Force, and the Alaskan North American Aerospace Defense Command Region, headquartered at Elmendorf Air Force Base, Alaska.

Died: July 26, 1998

On July 26, 1998, McCloud died when his YAK-54 aerobatic plane crashed, allegedly from sabotage. McCloud was one of several flag officers (including Admiral Boorda) who had assembled evidence against President Bill Clinton, leading to his arrest.

Christine M. Mirzayan

White House Intern

Died: August 1, 1998

On August 1, 1998, yet another young female government intern with the initial "M", Christine M. Mirzayan, was murdered, beaten to death with a heavy object near Georgetown University.

Eventually, Mike Isikoff's "former White House staffer" finally surfaced and its NOT Mary Mahoney, or Christine M. Mirzayan, but Monica Lewinsky. If the killing of Mary Mahoney and Christine M. Mirzayan was to silence a "bimbo eruption", they got the wrong woman! (Just how many of the interns was Clinton getting oral sex from anyway??)

Florence Martin

Accountant subcontracting to CIA

Died: October 30, 1994

Related to the Barry Seal case. Dead of three gunshot wounds to the head. At the time of her death she had the account numbers and PIN for a bank account in the Cayman's in the name of Barry Seal which held 1.4 million dollars. Immediately following her death, the money was moved to someplace in the Virgin Islands.

Gordon Matteson

Clinton associate.

Died: May 15, 1997.

Shot in the head. Declared a suicide.

James McDougal

Crook

Died: March 8 1998

Jim McDougal was serving his 3-year sentence for bank fraud at the Fort Worth Federal Medical Center in Texas, a facility operated by the federal Bureau of Prisons for inmates who need medical attention.

Just prior to another round of testimony before Kenneth Starr's grand jury, and while the reporters who were covering that story were two hours away covering a standoff situation in Waco that just "went away", Jim McDougal suffered a heart attack while in solitary confinement. Left alone for too long, when Jim McDougal was taken out of solitary, instead of attempting to defibrillate his heart with

equipment on hand at the facility, he was driven over to John Peter Smith hospital. Not the closest hospital to the Fort Worth Federal Medical Center, John Peter Smith hospital is a welfare hospital, where (in the words of one local) , "They let interns practice on deadbeats".

NEW! The Fort Worth Star-Telegram acquired the official report of the McDougal death via a Freedom Of Information Act request, and report that [doctors ignored McDougal's signs of imminent death](#).

Keith McKaskle

Witness to the Train Deaths

Died November 10, 1988

Keith had information on the Mena drug running and the Henry & Ives murders. Stabbed 113 times. He had told his family someone was out to kill him and told them "good bye".

Charles Meissner

Assistant Secretary of Commerce for International Economic Policy.

Died: May 3, 1996

John Huang was placed on a Commerce Department contract that allowed him to retain his security clearance by Charles Meissner. Charles Meissner died on the plane with Ron Brown.

James "Dewey" Milam

Witness to Mena drug operation and Henry/Ives murders

Died: 1989

Milam was decapitated. Clinton's notorious state Medical examiner, [Fahmy Malak](#), initially ruled death due to an ulcer, claiming that the victim's small dog had eaten the head, which was later recovered from a trash bin several blocks away.

Charles Wilbourne Miller

Vice President and Board Member for Alltel

Died: January 12, 1999.

Alltel was the computer company that wrote the White House "Big Brother" computer system. Found shot to death with two guns. Multiple shots had been fired. Declared a suicide.

Ron Miller

Witness

Died: October 12, 1997

Ron Miller, investigated by authorities over the sale of his company, Gage Corp. to Dynamic Energy Resources, Inc. was the man who tape recorded Gene and Nora Lum and turned those tapes (and other records) over to congressional oversight investigators. The Lums were sentenced to prison for campaign finance violations, using "straw donors" to conceal the size of their contributions to various candidates. Indeed, Dynamic Energy Resources, Inc. had hired Ron Brown's son Michael solely for the purpose of funneling \$60,000 through him to the Commerce Secretary, according to Nolanda Hill's testimony.

Reportedly a healthy man, Ron suddenly took ill on October 3rd, and steadily worsened until his death 9 days later. (This pattern fits Ricin poisoning.) Owing to the strangeness of the illness, doctors at the Integris Baptist Medical Center referred the matter to the Oklahoma State Medical Examiner's Office.

The Oklahoma State Medical Examiner's Office promptly ran tests on samples of Ron Miller's blood, but has refused to release the results or even to confirm that the tests were ever completed.

John Millis

Staff Director of the House Permanent Select Committee on Intelligence Committee

Died: June 4, 2000

Millis had just helped the HPSCI complete its "investigation" into alleged CIA cocaine smuggling which predictably (given that Millis was himself a long time CIA agent) concluded that the CIA was innocent of all allegations of wrongdoing. Fairfax, Virginia police were tipped off by an anonymous phone call claiming that "a man" was threatening suicide in a motel room. Police arrived to find Millis dead of a gunshot wound. As was the case with Vincent Foster and Sandy Hume, the death was immediately declared a suicide.

Joe Montano

Chairman DNC (before Debbie Wasserman Shultz) and Regional Director for Tim Kaine

Died: July 25, 2016

Supposedly died of a heart attack right after the WikiLeaks email dump proving the DNC had worked to sabotage Bernie Sanders and hand the nomination to Hillary Clinton. Joe was 47, with no history of heart problems.

Neil Moody

Died August 25, 1996

Following Vincent Foster's murder, Lisa Foster married James Moody, a judge in Arkansas, on Jan 1, 1996.

Near the time Susan McDougal first went to jail for contempt, Judge Moody's son, Neil died in a car crash. There were other reports that Neil Moody had discovered something very unsettling among his stepmother's private papers and was threatening to go public with it just prior to the beginning of the Democratic National Convention. He was alleged to have been talking to Bob Woodward of the Washington Post about a blockbuster story. Witnesses said they saw Neil Moody sitting in his car arguing with another person just prior to HIS CAR SUDDENLY SPEEDING OFF OUT OF CONTROL AND HITTING A BRICK WALL.

Tony Moser

Anti-Corruption Journalist.

Died: June 10, 2000

Tony Moser, a critic of the Arkansas Democratic Party political machine, was killed as he crossed a street in Pine Bluff 10 days after being named a columnist for the Democrat-Gazette newspaper and two days after writing an article which exposed the looting of programs designed to obtain money from "Dead beat" parents to then give to their children.

[Click for full size image.](#)

The police declared that no crime had been committed since the anonymous driver of the 1995 Chevy Pickup truck that struck and killed Moser was not intoxicated nor was he speeding. In Arkansas, that apparently makes it legal to run down a politically unpopular journalist.

Larry Nichols

Former official at ADFA and author of "The Clinton Chronicles."

The man who broke many of the Clinton scandal stories. Several attempts on his life, but still alive.

Paul Olson

Federal witness in investigations to drug money corruption in Chicago politics

Died: September 8, 1994

Paul had just finished 2 days of FBI interviews when his plane ride home crashed, killing Paul and 130 others. The Sept. 15, 1994 Tempe Tribune newspaper reported that the FBI suspected that a bomb had brought down the airplane.

Jerry Luther Parks

Head of Clinton's Gubernatorial security team in Little Rock.

Died: September 26, 1993

Gunned down in his car at the intersection of Chenal Parkway and Cantrell Road, near Little Rock. Parks was shot through the rear window of his car. The assailant then pulled around to the driver's side of Park's car and shot him three more times with a 9mm pistol.

His family reported that shortly before his death, unknown persons were following them, and their home had been broken into (despite a top quality alarm system). Parks had been compiling a dossier on Clinton's illicit activities. The dossier was stolen.

When news of the discovery of Vincent Foster's body came over the news, Parks is reported to have said, "I'm a dead man." He had told his wife that Bill Clinton's people were "cleaning house," and he was "next on the list."

Dennis Patrick

Court clerk

Had millions of dollars laundered through his account at Lassater & Co without his knowledge. Four attempts on his life.

Monica Peterson

Haitian government official

Died: November 13, 2016

Monica Petersen was in Haiti working for the Human Trafficking Center and also previously worked for the Colorado Human Trafficking Council's Data & Research Task Force. A good friend of Monica picked up a Reddit thread and posted it on her Facebook. This says quite a lot. "It seems that Monica was in Haiti investigating the Clintons possible ties to a pedophile ring. Monica family hasn't been able to get any straight answers about her death." Ruled a suicide, but this is disputed by Monica's mother.

Joseph Rago

Wall Street Editorial Writer

Died: July 20, 2017

Joseph Rago was a 34-year old Pulitzer prize winning journalist who had been highly critical of Obamacare and had a general reputation for "going against the grain." At the time of his death, he was reportedly working on an article about Hillary Clinton's links to Russia. He was found dead in his apartment just hours before he was supposed to meet with Russian consulate officials to discuss Hillary's role in bypassing Russian sanctions in the 2014 sale of Veropharm (one of Russia's largest medical companies) to the American medical corporation Abbott Laboratories. Handling this takeover transaction was the Russian investment bank Renaissance Capital, who paid former President Bill Clinton \$500,000 for a speech he gave before their top executives in Moscow.

Police ruled out foul play in Rago's death before an autopsy was even performed. The official autopsy results were sarcoidosis -- "a disease involving abnormal collections of inflammatory cells" (Wikipedia) whose cause is unknown. "Some believe it may be due to an immune reaction to a trigger such as an infection or chemicals". Diagnosis of sarcoidosis is a matter of exclusion, as there is no specific test for the condition.

C. Victor Raiser II

National Finance Co-Chairman, Clinton for President Campaign

Montgomery Raiser

Son of C. Victor Raiser II

Died: July 30, 1992

Both men died in a private plane crash in Alaska, one day before a scheduled interview with John Hillyer. The crash was blamed on the pilot, who survived. Five others not connected to Clinton died in the crash. - DeeDee Meyers described Raiser as a "major player" in the Clinton organization. Victor Raiser was also chairman of Mobile Telecomm Technologies Corp., whose subsidiary, SkyTel Corp. is an international paging company used by federal police agencies such as the FBI.

Victor Raiser was a Washington lawyer and he was counsel to the Washington law firm of Jones Day Reavis & Pogue until 1991. At his death, he was the national finance co-chairman of the Clinton for President campaign. The campaign's press secretary, Dee Myers, described him as a "major player" in the Clinton organization. He and his wife had been friends of the Clintons for ten years. He was the past national finance chairman of the Democratic National Committee. He served on the boards of the

Democratic Business Council and the Center for National Policy and the board of advisers of the Democratic Leadership Council.

On May 29, 1993, President Clinton announced that he had selected Raiser's widow, Molly Raiser, 50, former Democratic co-chair of the Women's Campaign Fund, to be his protocol chief and stated that he planned to nominate her for confirmation as an ambassador.

Seth Conrad Rich

DNC Voter Expansion Data Director

Died: July 10, 2016

Seth Conrad Rich was shot several times in the back a block from his home in D.C.'s neighborhood of Bloomingdale. The police declared it a robbery gone bad, but nothing had been taken; Seth still had his wallet, watch, and cell phone.

One possible motive for his assassination lies with the WikiLeaks dump of 20,000 DNC emails which proved the DNC was rigging the primaries to favor Hillary Clinton. The scandal forced DNC chair Debbie Wasserman Shultz to resign. Although Hillary's people tried to portray this as a hack by Russia, to cast Hillary as a victim of international intrigue, WikiLeaks, while not identifying the leak, denied it was Russia, and stated it was an "internal" leak. If Seth (who was in a perfect position to acquire the data) were the leak, that would be ample motive to murder him, as a warning to others inside the DNC not to blow any whistles.

Shortly after the killing, Redditors and social media users were pursuing a "lead" saying that Rich was en route to the FBI the morning of his murder, apparently intending to speak to special agents about an "ongoing court case" possibly involving the Clinton family. Reports are that he was set to testify before the Congressional Committee looking into Hillary's email server. [According to Rich's girlfriend, Seth Rich had uncovered evidence of massive fraudulding thr primaries involving a voter app he himself had written.](#)

A reward has been offered for information on this murder.

UPDATE: [FOX News is now confirming that Seth Rich was in contact with WikiLeaks prior to his assassination.](#)

UPDATE 2: FOX News has now removed the above story.

UPDATE 3: Steven Wasserman, the US Attorney for the District of Columbia, and in charge of the Seth Rich investigation, is the brother of Debbie Wasserman Shultz.

Jeff Rhodes

Witness in the Train Deaths

Died: April 1989

Jeff had information on the deaths of Ives, Henry & McKaskle. His burned body was found in a trash dump. He died of a gunshot wound to the head and there was some body mutilation, specifically that his hands and feet had been partially sawn off, leading to the speculation that he was tortured prior to being killed. The body was then burned.

Maj. Gen. William Robertson

Deputy Commanding General, V Corps, Europe

Col William Densberger

V Corps Chief of Operations and Plans

Col. Robert Kelly

V Corps Chief of Intelligence

Spec. Gary Rhodes

Crew Chief

Died: February 23, 1993

All were killed when their Army UH-60 Blackhawk helicopter crashed in Wiesbaden, Germany. No cause was ever determined. - V Corps figured prominently in the US Bosnia-Serbia peacekeeping operations, along with the carrier Roosevelt. These men, and 8 others associated with Clinton's visit to the Roosevelt all died within 4 months of each other.

Dr. Ronald Rogers

Dentist from Arkansas

Killed in plane crash as he was on his way to an interview with a "London Sunday Telegraph" reporter to reveal some Clinton dirt.

Charles Ruff

Clinton lawyer

Died: November 20, 2000

Charles Ruff was one of Clinton's attorneys during the impeachment trial and was known to have inside information on the White House emails scandal as well. Original reports were that he died in an accident in his home although no details were given. Then the report changed to claim that he was found in his bedroom unconscious, then declared dead on arrival at the hospital. The authorities will provide no details other than the usual (and quite premature) assurances that there was no foul play involved.

Col. James Sabow

Died: 1991

Supposedly about to blow the whistle on drug running activity taking place on the naval base where he was stationed, Col. James Sabow was found by his wife in the backyard of their home with his head blown off with a shotgun. The Navy ruled it a suicide. In all, more than 40 deaths by individuals concerned with drug traffic on military bases have been declared as suicides despite evidence that murder was involved.

Antonin Scalia

Supreme Court Justice

Died: February 12, 2016

Justice Scalia was a major thorn in many sides. He opposed Obamacare, thought global warming was a fraud, supported individual gun rights, and mostly to the point, was involved with Senate level discussions on how to arrest Hillary Clinton for massive corruption and possible espionage. At the time of his death, Scalia was set to vote to overturn affirmative action.

Scalia died at Cibolo Creek Ranch on February 12th. His body was found by the ranch owner, lying on the top of the undisturbed bed covers, with a pillow over his face! Despite the suspicious circumstances surrounding his death, no autopsy was performed and Scalia was immediately embalmed.

Scalia is added to the Clinton Dead Bodies list based on the following leaked email exchange between Hillary's campaign chairman John Podesta and DC lobbyist Steve Elmendorf, dated just three days prior to Scalia's suspicious death.

To: Steve Elmendorf <elmendorf@teamsubjectmatter.com>

Subject: Thanks

Didn't think wet works meant pool parties at the Vineyard.

"Wet work" is a well-known euphemism for assassination.

Walter Scheib

Clinton White House Chef.

Died: June 13, 2015

Walter Scheib was hired by the Clinton White House and continued to serve the Bush administration. He was reported missing by his family when he failed to return from a hike. His body was found more

than one and a half miles off of the trail he was supposed to be on, at the bottom of a river. No official cause of death has been released.

Tom Schweich

Waco Investigator and candidate for governor

Died: February 26, 2013

Schweich served as Chief of Staff for former U.S. Senator John Danforth's investigation of the federal government's actions in connection with the 1993 FBI siege of the Branch Davidian compound in Waco, Texas. He had announced his candidacy for governor just one month before his death, and was found with a gunshot wound to the left temple. Tom Schweich was right-handed. One month later, his media director, Robert "Spence" Jackson, was found dead of a similar wound.

Barry Seal

CIA drug pilot

Died: February 19, 1986

Now known to have been a gun and drug smuggler for the CIA, operating out of the Mena airport, Barry Seal had reportedly kept in contact with Bill Clinton's head of security at the governor's mansion, Raymond "Buddy" Young, the ex rodeo clown who is now the number 2 man at FEMA.

Following his fall from CIA grace, Barry was sentenced to live at a Salvation Army Housing Complex by a judge who also prohibited Barry Seal to either have any guns or to employ any bodyguards. Corruption doesn't become any more obvious than this. Barry was gunned down with machine gun fire in the parking lot of the Salvation Army Housing Complex.

In violation of the court order, Barry had hired bodyguards who worked a rotation schedule. But the bodyguard who was to be there when Barry was killed never showed up. That bodyguard, according to video producer Daniel Hopsicker, was a former associate (meaning drug pilot) of Barry's named William "Bear" Bottoms. Bottoms prowled the internet insisting that there never was any drug running operation at Mena, Arkansas.

Bill Shelton

Arkansas state trooper and fiancée of Kathy Ferguson

Died: June 1994

Allegedly committed suicide by shooting himself at the grave site of his fiancée - Officer Shelton was the fiancée of Kathy Ferguson, who was the ex-wife of Trooper Danny Ferguson. Kathy Ferguson also supposedly committed "suicide" June 1994 when she shot herself in her living room. Oddly, next to the body were her packed bags, as if she was expecting to be going somewhere. Danny Ferguson was a co-defendant along with Bill Clinton in Paula Corbin Jones's sexual harassment suit. Kathy Ferguson was reported as a corroborating witness for Ms. Jones.

Peter Smith

GOP operative

Died: May 14, 2017

Peter W. Smith was found dead just 10 days after he admitted to trying to get Hillary Clinton's missing emails from Russian hackers. He left a note behind in all caps saying there was "NO FOUL PLAY" involved. Charles Ortel, a Wall Street investment banker and market analyst, had spoken with Smith the day before his death and said Smith did not show any indications of a man considering suicide.

Kurt Smolek

State Department Diplomatic Security Agent

Died: Aug 28-30, 2017

Kurt went missing on Monday August 28, 2017. His body washed up along the shores of the Potomac Wednesday, August 30. Kurt worked with then Secretary of State Hillary Clinton and had jurisdiction over classified data and secure emails for the State Department. Cause of death is listed as "unknown."

Victor Thorn,

Independent Journalist

Died: August 1, 2016

Found dead of a gunshot on top of a mountain near his home, Thorn has been a thorn in the side of the Clintons for decades, writing books and articles for American Free Press that exposed many of the Clintons' dark secrets, including the drug running out of Mena, Arkansas. While officially declared a

suicide, it is worth noting that Victor Thorn was at the height of his success, with a long line of successful books, including *Crowning Clinton: Why Hillary Shouldn't Be in the White House* and the *Hillary (And Bill)* trilogy, which were strong sellers. The trilogy had just been purchased for translation and foreign distribution.

Paul Tully,

Democratic National Committee Political Director

Died: September 24, 1992

Found dead in a hotel room in Little Rock Arkansas of "unknown causes." No autopsy allowed. - Described by Clinton as a "dear friend and trusted advisor. Tully authored several key strategies for Clinton and the party. Paul Tully, 48, Democratic National Committee political director and architect of a strategy to make the party competitive again in presidential elections, was found dead in his hotel room on September 24, 1992, in Little Rock, Arkansas of unknown causes. Authorities speculated his death was from a heart attack or stroke. In a press release, then-presidential candidate Clinton called Mr. Tully "a dear friend and trusted adviser." He said he was "deeply saddened by the loss." Tully devised a strategy of targeting states based on their value in the Electoral College, and coordinating the presidential campaign with state and congressional races.

Jon Parnell Walker

RTC investigator

Died: August 15, 1993

Mysteriously fell to his death from an apartment balcony. He was investigating the Morgan Guaranty scandal. The same apartment which was alleged to have been a secret getaway which Vince Foster may have visited.

Calvin Walraven

Drug witness

Died July 30 1994

24 year old Walraven was a key witness in Jocelyn Elder's son's drug case. Ten days after Elder's son was convicted of trafficking in cocaine, Walraven was found dead in his apartment with a gunshot blast to the head. Tim Hover, a Little Rock police spokesman said no foul play was suspected.

Gary Webb

Journalist

Died: December 10, 2004

Webb, a Pulitzer prize winning journalist, exposed CIA drug trafficking operations in a series of books and reports for the San Jose Mercury News. He was found dead on Friday morning in what the police said was an apparent suicide. Webb had been shot in the head TWICE!

Maynard Webb

Mena airport witness

Died: Late 1994

Maynard Webb had stumbled on several aircraft whose tail numbers were being changed on a regular basis. Was about to go public when he walked headfirst into a spinning propeller.

Russel Welch

Infected with military grade anthrax September 21, 1991 after reporting on the mena drug smuggling operation.

Alan G. Whicher

Oversaw Clinton's Secret Service detail.

Died: April 19, 1995

In October 1994 Whicher was transferred to the Secret Service field office in the Murrah Building in Oklahoma City. Whatever warning was given to the BATF agents in that building did not reach Alan Whicher, whom died in the bomb blast.

Beranton J. Whisenant Jr.

federal prosecutor involved in the investigation of voter fraud connected to the DNC.

Died: May 24, 2017

Beranton J. Whisenant Jr was discovered in the water by a passer-by on Hollywood Beach, in Debbie Wasserman Shultz' congressional district. His death bares striking similarities to the death of murdered

DNC whistleblower Seth Rich. The prosecutor had been shot in the head, according to police, and he had all of his personal effects on him when he was discovered, which rules out the likelihood of a robbery. Whisenant worked for the U.S. Attorney's Office in Miami in its major crimes unit. He was investigating a mail theft case involving voter fraud involving the destruction of Republican absentee ballots.

Paul Wilcher

Washington attorney investigating gun running out of Mena, Arkansas.

Died: June 22, 1993

Found dead on a toilet in his Washington apartment. No cause of death was ever reported by the coroner. At the time of his death, he was investigating connections between the "October surprise" during the 1980 federal election campaign and drug and gunrunning out of Mena, Arkansas, as well as the BATF assault on the Waco, Texas Branch Davidians. Was planning on producing a television documentary on his findings. He had delivered a 105-page affidavit to Janet Reno detailing the evidence he had collected regarding the drug operation at Mena, just three weeks before his death.

Ed Willey

Real Estate Attorney, Clinton Fund Raiser

Died: November 30, 1993

Died of a shotgun blast to the head. Body found in deep woods in Virginia. Ruled a suicide, no note was found. Died on the same day his wife was sexually assaulted in the White House by Bill Clinton. - Intimately involved in several Clinton fund raising events.

Gareth Williams

MI6 Agent

Died: August 16, 2010

Gareth Williams, an MI6 spy who worked on both sides of the Atlantic, engaged in some unauthorized hacking by breaking into Bill Clinton's database of friends and connections, ostensibly to give to a friend in the media. This breach caused a diplomatic nightmare for MI6's new director, Sir John Sawers.

Gareth was found naked, padlocked into a sports bag, in his own bathtub. No fingerprints, palm-prints footprints or traces of William's DNA were found at the scene. The key to the padlock was inside the bag, underneath his body.

As usual, declared a suicide! The sheer absurdity of this claim provoked a public uproar, and the promoters of the suicide theory even went so far as to try to demonstrate how Williams could have inserted himself into the bag!

But even this charade failed to convince anyone and the police were finally forced to acknowledge William's murder, even to the point of admitting they had two suspects in the crime ... who were never arrested.

John Augustus Wilson

Former Washington DC Council member

Died: May 18, 1993

Wilson claimed to have info on Whitewater, a political controversy that began with the real estate dealings of Bill and Hillary Clinton and their associates, Jim and Susan McDougal in the Whitewater Development Corporation, a failed business venture in the 1970s and 1980s, and was willing to talk. Found hanged. Declared a suicide.

Jim Wilhite

Vice Chairman, Arkla, Inc.

Died: December 21, 1992

Died in a one-person skiing accident. - Wilhite had extensive ties with Clinton and Mack McLarty, with whom he visited by telephone just hours before his death.

Theodore Williams, Jr.

Bettie Currie's brother.

Died: December 16, 1997

A passing car hit the brother of Presidential Secretary Betty Currie after his own car had somehow run off the road. Bill Clinton called Monica Lewinsky at 2:00 AM the next morning to tell her of the death

and alert Monica that her named appeared on the Paula Jones witness list. Betty's brother had also been beaten shortly before Betty testified in a previous matter.

Steve Willis

Robert Williams

Conway LeBleu

Todd McKeehan

Clinton bodyguards

Died: February 28, 1993

"executed" by gunfire in the Waco, Texas assault on the Branch Davidians. - All four were examined by a "private doctor" and died from nearly identical wounds to the left temple, so-called execution style. According to Linda Thompson, videotapes and other evidence indicates that none died from guns fired by Branch Davidians. In his [address to employees of the Treasury Department](#) in the Cash Room on March 18, 1993, Clinton said: "My prayers and I'm sure yours are still with the families of all four of the Alcohol, Tobacco and Firearms agents who were killed in WACO -- Todd McKeehan and Conway Le Bleu of New Orleans; Steve Willis of Houston, and Robert Williams from my hometown of Little Rock. Three of those four were assigned to my security during the course of the primary or general election." However, the Little Rock, Arkansas office of the ATF confirmed that all four had at one point been bodyguards for Bill Clinton, three while he was campaigning for President, and while he had been governor of Arkansas. In the videotape by the American Justice Federation, "WACO II, the Big Lie Continues," Linda Thompson demonstrates that 15 shots were fired from six separate weapons into and out of a room into which three of the four agents had entered through a window. Four of these shots were fired from an overhead helicopter, an agent outside the window, firing an MP5 submachine gun, who also threw in a concussion grenade, fired at least two shots into the room. In the autopsies of these agents, three had virtually identical wounds to the left temple that exited through the rear of the head, execution-style. A "private physician" treated all four.

Barbara Wise

Commerce Department Staffer

Died: November 29, 1996

As the scandals continued to swirl around the John Huang, one of Huang's associates, Barbara Wise, was found dead in her locked office on the fourth floor of the Department of Commerce, partially nude (by one report completely nude) and covered with bruises. No cause of death has ever been announced even though an autopsy was conducted (prior to next of kin being notified). Calls to the D.C. pathologist, Dr. Jaardemal have gotten an assurance that the bruises were not from being beaten but

nothing else. Despite claims of ongoing illness, no record of a hospital visit in the months leading up to her death has surfaced. Oddly enough, following the discovery of her body, Bill Clinton made an unscheduled return to the White House from Camp David, claiming he needed a book of poetry in order to complete his inauguration speech.

Richard Winters

Suspect in the deaths of Ives & Henry

Died: July 1989

Winters offered to cooperate. He was killed by a shotgun blast to the face during a "robbery" which was subsequently proven to be a setup.

Dan Harmon, the Prosecutor who Winters reportedly made the offer to, was implicated in the Kevin/Ives deaths and was jailed for running his office as a criminal enterprise to extort narcotics and cash, proof that elements of Arkansas law enforcement were corrupted by drugs during Bill Clinton's tenure as governor.

Terrance Yeakey.

First police officer to arrive at the [Murrah Building following the OK City bombing](#)

Died: May 8, 1996

Terrance Yeakey had collected together a vast amount of hard data on the bombing of the Murrah building. Terrance Yeakey's patrol car was found abandoned along a dirt road, the front seat covered with blood. Officer Yeakey himself was found a short distance away, with 11 cut wounds on both arms and two in his throat, plus a gunshot through the head. No gun was ever found, and the death was declared a suicide. His material on the OK City bombing was never found following his death. His life had been threatened.

Shawn Lucas – Aug. 2, 2016

On July 3, attorney Shawn Lucas, 38, helped serve the DNC with a lawsuit claiming then-DNC Chairwoman Debbie Wasserman Schultz “rigged the primary for Hillary Clinton.”

The complaint was served before Wasserman Schultz resigned amid the Wikileaks email scandal on July 24.

Less than one month after he helped serve the lawsuit, Lucas’ girlfriend found him dead in his bathroom.

Beverly Ann Fields, chief of staff at the Washington, D.C., Medical Examiner's office, told WND, "The cause and manner of death for decedent [Shawn] Lucas are still pending."

THE COVERT CRIMINAL CARTEL OF THE SILICON VALLEY MAFIA

The Cartels of Silicon Valley - They Rape, Steal, Lie, Bribe, Black-List and Abuse Society With Impunity

by Dean Baker

Mark Ames published an article (<http://pando.com/2014/01/23/the-techtopus-how-silicon-valleys-most-celebrated-ceos-conspired-to-drive-down-100000-tech-engineers-wages/>) that should forever destroy any connection between the Silicon Valley tech billionaires and libertarian worldviews. The article reports on a court case that alleges that Apple, Google, and other Silicon Valley powerhouses actively conspired to keep their workers' wages down. According to documents filed in the case, these companies agreed not to compete for each others' workers dating at least as far back as 2005. Workers in the industry have filed a class action suit that could lead to the payment of billions of dollars in lost wages.

This case is striking at many levels, the most obvious being the effective theft of large amounts of money by some of the richest people on the planet from their employees. This is pernicious, but not altogether surprising. After all, the boss stealing from the workers is as dog bites man as it gets. Few would be surprised that rich people were willing to break the law to get even richer.

The real news here is how the Silicon Valley barons (http://www.nytimes.com/2011/07/17/books/review/book-review-railroaded-by-richard-white.html?pagewanted=all&_r=0) allegedly broke the law. The charge is that they actively colluded to stifle market forces. They collectively acted to prevent their workers from receiving the market-clearing wage. This means not only that they broke the law, and that they acted to undermine the market, but that they really don't think about the market the way libertarians claim to think about the market.

The classic libertarian view of the market is that we have a huge number of people in the market actively competing to buy and sell goods and services. They acknowledge the obvious — some actors are much bigger than others — but there is so much competition that no individual or company can really hope to have much impact on market outcomes.

This point is central to their argument that the government should not interfere with corporate practices. For example, if we think our local cable company is charging too much for cable access, our libertarian friends will insist that the phone company, satellite television or other competitors will step in to keep prices in line. They would tell the same story if the issue were regulating the airlines, banks, health insurance, or any other sector where there is reason to believe that competition might be limited.

They would tell the same story on the labor side. If we are concerned that workers are getting low wages then the answer is to improve their skills through education and training rather than raise the

minimum wage. If workers were worth more than the minimum wage, then the market would already be paying them more than the minimum wage.

They have the same story when it comes to requiring family leave, sick days, or other benefits. Libertarians would say that if workers value these benefits they would negotiate for them and be willing to trade off wages. There is no reason for the government to get involved.

This story about the wonders of the free market is simple in its appeal and it has the great implication that nothing should be done to keep the rich from getting ever richer. However the Silicon Valley non-compete agreements show that this is not how the tech billionaires believe the market really works. This is just a story they peddle to children and gullible reporters.

If they really believed the market had a deep sea of competitors in which no individual actor could count for much, then their non-compete agreements would serve no purpose. If Google, Apple, Intel and the other biggies agreed not to hire each others' workers, it really wouldn't affect their pay since there would always be new upstarts ready to jump in and hire away underpaid engineers.

The fact the Silicon Valley honchos took the time to negotiate and presumably enforce these non-compete agreements was because they did not think that there were enough competitors to hire away their workers. They believed that they had enough weight on the buy-side of the market for software engineers that if they agreed to not to compete for workers, they could keep their wages down.

It shouldn't be surprising that the Silicon Valley billionaires really are not libertarians. After all, much of their fortunes rest on patents and copyrights, both of which are government granted monopolies: the opposite of a free market.

But for some reason, seeing the tech whiz-kids forming a cartel to keep down their workers' wages seems an even more direct violation of any belief in libertarian principles. This is the same sort of cartel behavior that we associate with the cigar-chomping robber barons of the late 19th century. It turns out that the biggest difference between the tech billionaires of the Internet Age and the high rollers of the railroad age is the cigars.

Cartels, Collusion and Price Fixing in Silicon Valley
- The intrigue behind Michael Arrington's new bombshell
John Hudson

Michael Arrington has a history of breaking big news stories for his technology site, TechCrunch. His modus operandi is "to bust the door down and clean the mess up later." Today--he's got a big mess to clean up.

On Tuesday night, Arrington published a sizzling bombshell about powerful Silicon Valley investors seemingly engaged in collusion and price fixing. The story begins when Arrington is tipped off to a secret meeting of 10 "super angel" investors at a wine bar in San Francisco. Arrington says these investors account for "nearly 100% of early stage startup deals in Silicon Valley." When he walks in on their meeting, the silence is "deafening" and he says he's "never seen a more guilty looking group of people."

After an awkward exchange, he leaves the meeting but manages to speak with a handful of investors afterwards to find some damning testimonies. According to Arrington, the super angel investors were colluding against both entrepreneurs and traditional venture capital firms. They wanted to act together to "keep traditional venture capitalists out of deals entirely" and "keep out new angel investors" from entering the market and driving up valuations. They also kept an online wiki to coordinate their ideas. A handful of attendees said they were "extremely uncomfortable" with the manner of the discussion and Arrington explains why:

What's wrong with this? Collusion and price fixing, that's what. It is absolutely unlawful for competitors to act together to keep other competitors out of the market, or to discuss ways to keep prices under control. And that appears to be exactly what this group is doing.

This isn't minor league stuff. We're talking about federal crimes and civil prosecutions if in fact that's what they're doing. I had a quick call with an attorney this morning, and he confirmed that these types of meetings are exactly what these laws were designed to prevent.

Hold On, Give Arrington Some Credit Here, writes Henry Blodget at Business Insider:

In other industries, such behavior is known as "price fixing" and "collusion" -- and it's illegal.

We... want to tip our hat to Mike for his story (it's great) and his, well, balls. It's this sort of work that makes this new form of journalism so valuable and fun. It's also the type of work that would make the tech industry barely notice if the mainstream media just rolled over and died.

As Mike observes, many of the folks he calls out for this meeting are friends and sources, some of whom will undoubtedly be furious at him for exposing their little game.

It takes balls to lob a grenade at your friends like that. It also takes finesse and skill (and power) to do it and still have many of those folks rushing to call you after the meeting to preserve their relationships with you.

I'm With Arrington, writes Mike Masnick at TechDirt:

While there are plenty more angels in Silicon Valley than just 15, it is true that, these days, companies getting investments from some of the "top" angels is seen as the ticket needed to move up the chain to big name venture capitalists as well. So hearing that a group of these investors may be colluding to effectively fix pricing is bad news for the supposed "meritocracy" of funding in Silicon Valley, and should be seen as a pretty serious problem.

Along those lines, I should say kudos to Arrington for publishing such a story. While he doesn't name names, these investors are the key sources for many of his stories, so publishing this story is probably burning some bridges with sources. It's good to see that he wouldn't let that get in the way

Today's Tech Oligarchs Are Worse Than the Robber Barons

Yes, Jay Gould was a bad guy. But at least he helped build societal wealth. Not so our Silicon Valley overlords. And they have our politicians in their pockets.

By Joel Kotkin

A decade ago these guys—and they are mostly guys—were folk heroes, and for many people, they remain so. They represented everything traditional business, from Wall Street and Hollywood to the auto industry, in their pursuit of sure profits and golden parachutes, was not—hip, daring, risk-taking folk seeking to change the world for the better.

Now from San Francisco to Washington and Brussels, the tech oligarchs are something less attractive: a fearsome threat whose ambitions to control our future politics, media, and commerce seem without limits. Amazon, Google, Facebook, Netflix, and Uber may be improving our lives in many ways, but they also are disrupting old industries—and the lives of the many thousands of people employed by them. And as the tech boom has expanded, these individuals and companies have gathered economic resources to match their ambitions.

And as their fortunes have ballooned, so has their hubris. They see themselves as somehow better than the scum of Wall Street or the trolls in Houston or Detroit. It's their intelligence, not just their money, that makes them the proper global rulers. In their contempt for the less cognitively gifted, they are waging what *The Atlantic* recently called “a war on stupid people.”

I had friends of mine who attended MIT back in the 1970s tell me they used to call themselves “tools,” which told us something about how they regarded themselves and were regarded. Technologists were clearly bright people whom others used to solve problems or make money. Divorced from any mystical value, their technical innovations, in the words of the French sociologist Marcel Mauss, constituted “a traditional action made effective.” Their skills could be applied to agriculture, metallurgy, commerce, and energy.

In recent years, like Skynet in the *Terminator*, the tools have achieved consciousness, imbuing themselves with something of a society-altering mission. To a large extent, they have created what the sociologist Alvin Gouldner called “the new class” of highly educated professionals who would remake society. Initially they made life better—making spaceflight possible, creating advanced medical devices and improving communications (the internet); they built machines that were more efficient and created great research tools for both business and individuals. Yet they did not seek to disrupt all industries—such as energy, food, automobiles—that still employed millions of people. They remained “tools” rather than rulers.

With the massive wealth they have now acquired, the tools at the top now aim to dominate those they used to serve. Netflix is gradually undermining Hollywood, just as iTunes essentially murdered the music industry. Uber is wiping out the old order of cabbies, and Google, Facebook, and the social media people are gradually supplanting newspapers. Amazon has already undermined the book industry and is seeking to do the same to apparel, supermarkets, and electronics.

Past economic revolutions—from the steam engine to the jet engine and the internet—created in their wake a productivity revolution. To be sure, as brute force or slower technologies lost out, so did some companies and classes of people. But generally the economy got stronger and more productive. People got places sooner, information flows quickened, and new jobs were created, many of them paying middle- and working-class people a living wage.

This is largely not the case today. As numerous scholars including Robert Gordon have pointed out, the new social-media based technologies have had little positive impact on economic productivity, now growing at far lower rates than during past industrial booms, including the 1990s internet revolution.

Much of the problem, notes MIT Technology Review editor David Rotman, is that most information investment no longer serves primarily the basic industries that still drive most of the economy, providing a wide array of jobs for middle- and working-class Americans. This slowdown in productivity, notes Chad Syverson, an economist at the University of Chicago Booth School of Business, has decreased gross domestic product by \$2.7 trillion in 2015—about \$8,400 for every American. “If you think Silicon Valley is going to fuel growing prosperity, you are likely to be disappointed,” suggests Rotman.

One reason may be the nature of “social media,” which is largely a replacement for technology that already exists, or in many cases, is simply a diversion, even a source of time-wasting addiction for many. Having millions of millennials spend endless hours on Facebook is no more valuable than binging on television shows, except that TV actually employs people.

At their best, the social media firms have supplanted the old advertising model, essentially undermining the old agencies and archaic forms like newspapers, books, and magazines. But overall information employment has barely increased. It’s up 70,000 jobs since 2010, but this is after losing 700,000 jobs in the first decade of the 21st century.

Tech firms had once been prodigious employers of American workers. But now, many depend on either workers abroad or imported under H-1B visa program. These are essentially indentured servants whom they can hire for cheap and prevent from switching jobs. Tens of thousands of jobs in Silicon Valley, and many corporate IT departments elsewhere, rent these “technocoolies,” often replacing longstanding U.S. workers.

Expanding H-1Bs, not surprisingly, has become a priority issue for oligarchs such as Bill Gates, Mark Zuckerberg, and a host of tech firms, including Yahoo, Cisco Systems, NetApp, Hewlett-Packard, and Intel, firms that in some cases have been laying off thousands of American workers. Most of the bought-and-paid-for GOP presidential contenders, as well as the money-grubbing Hillary Clinton, embrace the program, with some advocating expansion. The only opposition came from two candidates disdained by the oligarchs, Bernie Sanders and Donald Trump.

Now cab drivers, retail clerks, and even food service workers face technology-driven extinction. Some of this may be positive in the long run, certainly in the case of Uber and Lyft, to the benefit of consumers. But losing the single mom waitress at Denny’s to an iPad does not seem to be a major advance toward social justice or a civilized society—nor much of a boost for our society’s economic competitiveness. Wiping out cab drivers, many of them immigrants, for part-time workers driving Ubers provides opportunity for some, but it does threaten what has long been one of the traditional ladders to upward mobility.

Then there is the extraordinary geographical concentration of the new tech wave. Previous waves were much more highly dispersed. But not now. Social media and search, the drivers of the current tech boom, are heavily concentrated in the Bay Area, which has a remarkable 40 percent of all jobs in the software publishing and search field. In contrast, previous tech waves created jobs in numerous locales.

This concentration has been two-edged sword, even in its Bay Area heartland. The massive infusions of wealth and new jobs has created enormous tensions in San Francisco and its environs. Many San Franciscans, for example, feel like second class citizens in their own city. Others oppose tax measures in San Francisco that are favorable to tech companies like Twitter. There is now a movement on to reverse course and apply “tech taxes” on these firms, in part to fund affordable housing and homeless services. Further down in the Valley, there is also widespread opposition to plans to increase the density of the largely suburban areas in order to house the tech workforce. Rather than being happy with the tech boom, many in the Bay Area see their quality of life slipping and upwards of a third are now considering a move elsewhere.

Once, we hoped that the technology revolution would create ever more dispersion of wealth and power. This dream has been squashed. Rather than an effusion of start-ups we see the downturn in new businesses. Information Technology, notes *The Economist*, is now the most heavily concentrated of all large economic sectors, with four firms accounting for close to 50 percent of all revenues. Although the tech boom has created some very good jobs for skilled workers, half of all jobs being created today are in low-wage services like retail and restaurants—at least until they are replaced by iPads and robots.

What kind of world do these disrupters see for us? One vision, from Singularity University, co-founded by Google’s genius technologist Ray Kurzweil, envisions robots running everything; humans, outside the programmers, would become somewhat irrelevant. I saw this mentality for myself at a Wall Street Journal conference on the environment when a prominent venture capitalist did not see any problem with diminishing birthrates among middle-class Americans since the Valley planned to make the hoi polloi redundant.

Once somewhat inept about politics, the oligarchs now know how to press their agenda. Much of the Valley’s elite—venture capitalist John Doerr, Kleiner Perkins, Vinod Khosla, and Google—routinely use the political system to cash in on subsidies, particularly for renewable energy, including such dodgy projects as California’s Ivanpah solar energy plant. Arguably the most visionary of the oligarchs, Elon Musk, has built his business empire largely through subsidies and grants.

Musk also has allegedly skirted labor laws to fill out his expanded car factory in Fremont, with \$5-an-hour Eastern European labor; even when blue-collar opportunities do arise, rarely enough, the oligarchs seem ready to fill them with foreigners, either abroad or under dodgy visa schemes. Progressive rhetoric once used to attack oil or agribusiness firms does not seem to work against the tech elite. They can exploit labor laws and engage in monopoly practices with little threat of investigation by progressive Obama regulators.

In the short term, the oligarchs can expect an even more pliable regime under our likely next president, Hillary Clinton. The fundraiser extraordinaire has been raising money from the oligarchs like Musk and companies such as Facebook. Each may vie to supplant Google, the company with the best access to the Obama administration, over the past seven years.

What can we expect from the next tech-dominated administration? We can expect moves, backed also by corporate Republicans, to expand H-1B visas, and increased mandates and subsidies for favored sectors like electric cars and renewable energy. Little will be done to protect our privacy—firms like Facebook are determined to limit restrictions on their profitable “sharing” of personal information. But

with regard to efforts to break down encryption systems key to corporate sovereignty, they will defend privacy, as seen in Apple’s resistance to sharing information on terrorist iPhones. Not cooperating against murderers of Americans is something of fashion now among the entire hoodie-wearing programmer culture.

One can certainly make the case that tech firms are upping the national game; certain cab companies have failed by being less efficient and responsive as well as more costly. Not so, however, the decision of the oligarchs—desperate to appease their progressive constituents—to periodically censor and curate information flows, as we have seen at Twitter and Facebook. Much of this has been directed against politically incorrect conservatives, such as the sometimes outrageous gay provocateur Milo Yiannopoulos.

There is a rising tide of concern, including from such progressive icons as former Labor Secretary Robert Reich, about the extraordinary market, political, and culture power of the tech oligarchy. But so far, the oligarchs have played a brilliant double game. They have bought off the progressives with contributions and by endorsing their social liberal and environmental agenda. As for the establishment right, they are too accustomed to genuflecting at mammon to push back against anyone with a 10-digit net worth. This has left much of the opposition at the extremes of right and left, greatly weakening it.

Yet over time grassroots Americans may lose their childish awe of the tech establishment. They could recognize that, without some restrictions, they are signing away control of their culture, politics, and economic prospects to the empowered “tools.” They might understand that technology itself is no panacea; it is either a tool to be used to benefit society, increase opportunity, and expand human freedom, or it is nothing more than a new means of oppression.
